HEARING

This time and place having been set for hearing to consider the continuation of public markets throughout the City, the Monticello Avenue Business Men's Ass'n, Jersey City Women's Club, Mr. E. G. Schaefer and Mr. S. W. Kagan appeared for the Chamber of Commerce, also Mr. J. Berger.

Mr. McCaffery of the Monticello Avenue Business Men's Ass'n objected to the market as unfair to the local merchants because the farmers were getting free use of the street, free advertising, paying no taxes, and their prices are just as high as the prices of the local merchants; that the so-called farmers who bring vegetables to these markets take the money out

of the city; that they are not farmers, but really pedlers who buy cheap stuff in the New York wholesale markets and sell it here as fresh.

Commissioner Fagen decided that the markets would be continued this year, provided it was guaranteed that the farmers who did the business were real farmers and not pedlers, to which the Chamber of Commerce and Women's club representative were agreeable. To this end he asked for the name of the various farmers entering the city, with their postoffice addresses, the city would make an independent investigation, and that a report would be made within a reasonably short time as to the advisability of continuing the markets.

By Commissioner Fagen:

Resolved, That the hearing on the advisability of continuing public markets in the City of Jersey City be and the same hereby is continued to Tuesday, June 13th, 1922, at 3 P. M. in the Assembly Chamber, City Hall, Jersey City.

IMPROVEMENT HEARING

This time and place having been set for a continuation of hearing on the ordinance for the construction of sewer in Lewis Avenue, from a point about 690 feet north of St. Paul's Avenue, in accordance with the provisions of Chapter 152, Laws of 1917, etc., Mr. Newton appeared for the Woodstock Company and Minder-Edgar Company stating that they have a sewer connection into a private sewer, but that they were willing to agree to a sewer up to a certain point. Mr. Philip Weber appeared, stating that a sewer is now and has been located in Lewis Avenue for the past years and runs up to No. 36 Lewis Avenue; that if the other property owners desired a sewer they should take care of themselves.,

Mr. Henry Folke, Martin Holler and A. Grinowski appeared favoring the construction of a sewer; that the condition of the street necessitated the construction of a sewer to take care of the flow of drainage waters settling in front of their premises; that due re-

gard should be given to the public health in the neighborhood and that the construction of a new sewer would eliminate the unsanitary conditions existing.

Commissioner Fagen stated that he would suggest an adjournment of the hearing pending a personal investigation which he would make within the next few days.

Schulte Cigar Co., electric sign, 327 Grove Street,

the City Clerk called for any one who might desire to protest against the granting of said permission.

Mr. Robert Hoos, representing the Chamber of Commerce, appeared, stating that their policy of objecting to the granting of permission to Thomas Regan is that by altering such buildings on Newark Avenue, etc., would not tend to make a better business district, but would only continue the life of such buildings.

Mayor Hague stated that in this case of altering the store fronts would cause no fire hazard or nuisance to the district.

No one appeared to protest and no written protests were received on the application of the Schulte Cigar Company.

By Mayor Hague:

Resolved, That permission be and the same is hereby granted to Thomas F. Regan to remove old store front and erect new store fronts at premises 76 Newark Avenue, Jersey City, as per plans on file; and further

FRANCHISE HEARING

A representative of the Goldschmidt Thermit Company appeared, asking to be placed on record as against the granting of the application, that the platform would protrude to such an extent that the ice company's motor trucks would block the street and prevent the ingress and egress of his company's trucks, and would stifle the operation of its plant. Mr. George L. Record also appeared for the Hudson Laundry Company and the Union Towel Supply Company objecting to the obstruction of the sidewalk, and also that it interferes with the ingress and egress of the trucks of the Hudson Laundry Company, and that you cannot take away the use of the sidewalk, which is dedicated to the public use; also objecting to the granting of any twenty-year franchise to maintain such platform, that it is beyond the power of the board to do so; that the permit, if granted, should be revocable at any time.

By Commissioner Fagen:

Resolved, That the hearing on the application of Christian Feigenspan to construct and maintain shipping platform at 68-83 Bishop Street be and the same hereby is adjourned and continued for a period of three weeks to Tuesday, July 11, at 3 p. m., in the Assembly Chamber, City Hall, Jersey City.

9. The Board of Commissioners of the Mayor and Aldermen of Jersey City may, by resolution, license any person to sell revolvers, pistols or other firearms in any store or business establishment within the City, subject to the provisions of this Ordinance.

10. Every license granted under the provisions of this ordinance shall expire on the first day of June next following the date of its issuance, and the City Clerk shall keep a record thereof in a book to be kept by him for such purpose. Any license granted under the provisions of this ordinance may be revoked by the Board of Commissioners of the Mayor and Aldermen of Jersey City for any reason which the said Board may deem sufficient therefor.

By Commissioner Fagen:

Whereas, Petition was filed with this Board on the sixteenth day of May, 1922, for the improvement of all that part of Lewis Avenue from a point about six hundred and ninety (690) feet north of St. Pauls Avenue by the construction of a sewer; and

Whereas, Ordinance was introduced declaring intention of said Board to make the improvement as petitioned for; and

Whereas, Notices were given according to law to all persons interested in said improvement; and

Whereas, Hearing upon said ordinance was held on the sixth day of June, 1922, and

Whereas, Objection was filed by owners of property liable to assessment for said improvement, and at their request the Director of the Department of Streets and Public Improvements, to whom said objection was referred, has reported that the protestants represent more than two-thirds of the value of the property liable to assessment for benefits by reason of making said proposed improvement; and

Further, That the reason for making said improvement is that the present private sewer in the street is not of sufficient depth to properly drain the abutting premises and will not admit of future growth and that the permission granted by which said sewer was built was accompanied by an agreement by the property owners that they would not object to a public sewer and therefore their objections are not valid; said Director further reports that the street is partially improved by grading, curb and sidewalk and is fairly well built with private houses and dwellings and factories and further reports that the Board of Health, because of the congestion of population has ordered the property owners to petition for a public sewer; therefore be it

Resolved, That upon the recommendation of the Director of the Department of Streets and Public Improvements, that the construction of this sewer is a public necessity as comprehended in the provisions of Chapter 152 of the Laws of 1917; therefore, be it further

Resolved, That this Board hereby declares that the construction of this sewer is a public necessity and that the following ordinance be now passed notwithstanding said objections:

An ordinance to improve all that part of Lewis Avenue from a point about 690 feet north of St. Pauls Avenue, in the City of Jersey City, by the construction of a sewer, in accordance with the provisions of Chapter 152, of the Laws of 1917, and the various supplements thereto and amendments thereof.

Whereas, It is deemed advisable by the Director of the Department of Streets and Public Improvements that Lewis Avenue from a point about 690 feet north of St. Pauls Avenue should be improved; therefore

The Board of Commissioners of Jersey City do ordain:

That, all that part of Lewis Avenue from a point about 690 feet north of St. Pauls Avenue, in the City of Jersey City, County of Hudson and State of New Jersey, shall be improved as follows:

1. To cause a 15-inch vitrified pipe sewer to be constructed in Lewis Avenue from a point about 690 feet north of St. Pauls Avenue to and connecting with sewer in St. Pauls Avenue, together with all the necessary manholes,

receiving basins and appurtenances, said sewer to be constructed in conformity to the provisions of Chapter 152, of the Laws of 1917, and the various supplements thereto and amendments thereof and in accordance with specifications to be specially prepared in accordance with the established plan of sewerage.

The City Clerk read the foregoing ordinance as being ready for passage on first reading.

The roll being called the ordinance was passed on first reading and ordered to lay on the table to Wednesday, July 5, 1922, at 3 p. m. in the Assembly Chamber, City Hall, Jersey City, by the following vote:

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

This time and place having been set for continuation of hearing on the application of Lewis Max for permission to alter premises and erect new store fronts at 123-123½ Montgomery Street, Mr. Robt. Hoos of the Chamber of Commerce appeared, stating that for the same reasons and objections as brought forth at the previous hearings, he requested the Board decline the said permission; that frame structures that are more than fifty per cent. beyond repair if permitted to be altered and reconstructed would be to continue the life of only a frame structure within the fire limits.

Mr. George L. Record appeared for

L. Max and stated that from information he had permit was issued to repair other buildings of a similar nature.

A report of the Superintendent of Buildings was read wherein it suggested that where a building was 50 per cent. beyond repair and recommendation made denying the granting of a permit, the applicant could have redress under the building code to ask for the appointment of a special committee. Thereupon Mr. Record, with the consent of Mr. Hoos, agreed upon the appointment of a special committee to go over the situation.

By Commissioner Gannon:

Resolved, That pursuant to the rules and regulations of building code a special committee be and is hereby appointed, to consist of three members, to investigate the application of L. Max to alter premises 123-123½ Montgomery Street, and recommend upon the advisability of issuing permit for doing said work.

Adopted.

This time and place having been set and advertised for the purpose of hearing objections to the application of F. A. Lohmeyer Company in the installation and maintenance of a two-phase two hundred and forty volt electric feeder at premises 340 Claremont Avenue, Jersey City, N. J.

The City Clerk called for anyone who might desire to protest against the granting of said permission. No one appeared to protest and no written protests were received. Commissioner Fagen moved the passage of said ordinance.

By Commissioner Fagen:

Resolved, That the following ordinance do now pass:

An ordinance for the relief of F. A. Lohmeyer Company in the installation and maintenance of a two-phase two hundred and forty volt electric feeder.

The Board of Commissioners of Jersey City do ordain:

Section 1. That the F. A. Lohmeyer Company is hereby permitted to install and maintain an electric feeder connecting the lines of the Public Service Electric Company on a pole on the west side of Halstead Street to the building located at 340 Claremont Avenue, on the northeast corner of Claremont Avenue and Halstead Street.

The pole of the Public Service Electric Company is located on the west side of Halstead Street, three feet from the Halstead Street curb line and seventy feet from the north curb line of Claremont Avenue. The feeder shall extend down the pole and across Halstead Street underground in a northeast direction, by an angle of approximately forty-five degrees and enter the building located at 340 Claremont Avenue at a point on Halstead Street one hundred feet from the north curb line on Claremont Avenue.

Section 2. The electric feeder herein authorized shall consist of four 350,000 circular mills, and two 500,000 circular mills, rubber covered cables, in two 3-inch galvanized iron conduits, between the pole on Halstead Street and the building at 340 Claremont Avenue. The conduits are to be standard weight, galvanized steel, and shall be buried ten inches apart on centers and the top of the conduits shall be four feet below the surface. The work herein authorized shall conform in every respect to the standards of the National Board of Fire Underwriters, and shall be done under the supervision and to the satisfaction of the proper officers of the Department of Streets and Public Improvements and Public Safety.

Section 3. The ordinance granting these privileges shall be in full force and effect for a period of twenty (20) years and theretofore until such time as the Mayor and Aldermen of Jersey City shall revoke or modify the same; an acceptance of any of the privileges herein contained being a recognition of the right of the city to so amend or revoke.

Section 4. That all costs and expenses incident to the introduction and passage of and publication of this ordinance and to the construction and maintenance of the electrical distribution system herein mentioned shall be paid by the said F. A. Lobmeyer Company.

Section 5. In accepting the privileges of this ordinance and the operating and maintenance hereby authorized the beneficiaries hereunder hereby agree to assume full, complete and undivided responsibility for any and all injury or damage to persons or property by reason of such operation and to hold the city harmless therefrom.

Section 6. For the privileges herein accorded the said beneficiaries shall pay annually on the first day of August to the City Comptroller of Jersey City the sum of One ($1.00) Dollar.

This time and place having been set for hearing on the protest of property owners and residents located on St. Paul's Avenue against the use of that portion of St. Paul's between Oakland Avenue and Baldwin Avenue, on the south side thereof, for commercial purposes, and also against the erection of the proposed milk distribution station in said neighborhood on St. Paul's Avenue.

Mr. Robt. V. Kinkhead represented the protestants, stating that the erection of said structure will be a nuisance to the neighborhood, and if it is erected adjacent to the protestant's property or across the street it will be just as bad, and the fact

of its wagons and automobiles loading and unloading milk at all hours of the night and day will cause a disturbance in the neighborhood and become a detriment and will cause a decrease in property values.

Mr. Harry Stiles represented the applicant. Mr. McRoberts, the applicant, stated that it is his intention to erect two-story brick building with facilities inside of building for loading and unloading wagons and automobiles, and the top floor to be used for office space and the storage of hay and feed; that he knows of no nuisance which will be created thereby; that the plant will be conducted under the regulations of the sanitary health code; that the surrounding neighborhood is such that there is located therein a milling plant, stable and factory located in the center of the square block; that if said buildings do not create a nuisance he does not see how the property owners can complain of a nuisance by the conduct of his business; that he has conducted a similar business in the immediate neighborhood on Beacon Avenue for the past twenty years and no one has ever complained of the conduct of said business as being a nuisance, that the zone ordinance does not prohibit the erection of said plant.

Mr. McRoberts further stated that on the vacant adjoining said building he intends to erect a private home for himself and family.

Mayor Hague stated that this Commission can not permit Mr. McRoberts to establish a nuisance, something that will be injurious to the health of the people and to the property in the neighborhood; that the welfare of the people who live there must be protected.

By Mayor Hague:

Resolved, That permit heretofore granted by the Superintendent of Buildings to erect two-story brick building for milk distribution station to H. McRoberts be and the same hereby is revoked.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

Nays: None.

By Commissioner Fagen:

Whereas, This Board met on the eighteenth day of July, 1922, to hear, consider and adjudicate upon objections which should be presented against the final assessment map and report for the improvement of Wade Street, between Ocean Avenue and Jackson Avenue, in accordance with the provisions of Chapter 152, P. At this time and place Gen. Wm. C. Heppenheimer heading a delegation from the Bergen Association, and Mr. R. J. Rendall heading a delegation from the Five Corners' Association, appeared and spoke in support of the proposed development of the Journal Square section of the City, and the connection of Summit Avenue on the east of the tube station and north to Newark Avenue and the Five Corners.

General Heppenheimer presented

resolutions adopted by the Bergen Association urging that the city condemn the Jersey Journal building, and the Journal Square building, and the frame building owned by James Sullivan; that it would be foolish to widen Bergen Avenue and Sip Avenue and make other necessary improvements without demolishing and condemning the block bounded by Journal Square, Boulevard, Bergen and Sip Avenue and devoting that space to public uses and thereby making a wider thoroughfare around that area.

Mr. Rendall presented petitions urging the widening and development of Summit Avenue from the Five Corners south to connect with Journal Square.

Mr. Ransom presented a petition and stated that the future of the tube section ought to be assured by the city acquiring the right of way or strip of land from Summit Avenue to the tube station.

Former Assemblyman Walter L. McDermott strenuously appealed to the Board that the area west of Journal Square be included in the development plan which would bring about further relief in the congested area.

Lawyer James A. Sullivan appeared to oppose the plan to condemn the block on Journal Square, stating that because of the large expenditure in the widening of Bergen and Sip Avenue, which seems sufficient to take care of all traffic conditions, it seemed highly impracticable and unwise to make an additional layout and condemn buildings which are really unnecessary where there are other streets which can be used as one way streets, such as Journal Square and Bergen Avenue, leading directly in the tube section area.

Mr. John L. O'Toole of the Public Service Corporation appeared, expressing his views on the future development of the proposed Summit Tube plaza and the concourse, and calling attention to its large investment in that area and feeling confident of the growth of Jersey City; that he hoped the new terminal plans would not be so arranged that his company would be ignored and the jitneys given an undue advantage in the terminal facilities.

Mayor Hague announced that next Tuesday, July 25, 1922, at 1 p. m., in the Assembly Chamber, City Hall, Jersey City, formal hearing will be held, at which time and place the Board of Chosen Freeholders and the City Commission will meet in joint session.

At this time hearing was held on the protest of residents of Clifton Place against the erection of gasoline pump at 93 Clifton Place.

Mr. Worman and Mrs. Taylor appeared objecting to the nuisance created by the garage located on said premises and that the erection of a gasoline tank would be a detriment and a fire hazard as well as a nuisance to the property and adjoining property.

The applicants stated that their garage had been there for some time and the erection of a gasoline tank is only for private use of their auto truck and pleasure car, and that they would place the gasoline tank inside of the garage to avoid any difficulty the protestants might complain of. It was decided that they come to an amicable settlement of the situation and erect the gasoline tank under the supervision of the Inspector of Combustibles.

PUBLIC HEARING OF JULY 25, 1922

Minutes of a Public Hearing held in the Assembly Chamber, City Hall, Jersey City, on Tuesday, July 25, 1922, at 1 o'clock P. M.

Present: Commissioners Fagen, Gannon, Moore and Mayor Hague, the Board of Chosen Freeholders, the Boulevard Commissioners and County Supervisor of Hudson County.

Absent: Commissioner Dolan (excused).

In according with the announcement made by the Mayor at the meeting held July 18, 1922, in the Assembly Chamber, City Hall, Jersey City, the City Clerk advised that he had caused to be published the following advertisement and notice of public hearing:

PUBLIC NOTICE

Notice is hereby given that on Tuesday, July 25, 1922, at 1 o'clock P. M., daylight saving time, a public hearing will be held in the Assembly Chamber, City Hall, by the Board of Chosen Freeholders and Boulevard Commissioners of Hudson County and the Board of Commissioners of Jersey City on the proposed plan for the improvement of traffic conditions in and about Summit Avenue Tube Station through widening of Boulevard Bridge and Hudson Boulevard, according to plans prepared by A. Burton Cohen, Consulting Engineer, as modified in accordance with suggestions for creation of plaza in Journal Square.

EDWARD J. HOLLAND,
City Clerk.

The Mayor then explained in detail what the proposed improvement will be and called for anyone who might desire to protest against such proposed improvement.

No one appeared to be heard against the proposed improvement. Thereupon the Mayor announced that those in favor of the improvement would be heard.

Edward A. Ransom, Jr., appeared and stated that he was in favor of the entire plan for the proposed improvement and also urged the establishment by the city of a private right of way from the tube station to Summit Avenue.

Mr. Runyon, chairman of the Bergen Association Committee, stated that the improvement was necessary and that the association was very much interested in seeing it completed.

William A. LeVine, Secretary of the Bergen Association, spoke along the same lines as Mr. Runyon. He also presented a resolution passed by the Executive Committee of the Bergen Association, favoring the widening of Summit Avenue from Five Corners to Sip Avenue and recommending that the City Commissioners acquire as a public highway a commodious right of way from the Boulevard to Summit Avenue Bridge over what is known as the Concourse.

Rev. Harvey L. Wyatt appeared and requested a more definite idea of what was contemplated in the proposed improvement. The Mayor and Mr. Cohen, the engineer, replied to the satisfaction of Rev. Wyatt.

Mr. Dealing requested that Magnolia Avenue be widened to the bridge.

Mr. Hague of the Ryer-Hague Company favored the opening up of the ramp from Summit Avenue to the Boulevard. Mr. Ransom advocated the same suggestion because leases to offices provide for an outlet onto the concourse only and the railroad company may close up the property at the expiration of the tenant's lease.

At this time a Mr. Hopper from West Hoboken appeared and stated that he wishes to go on record as opposed to the proposed plaza, particularly if the

entire amount of the cost is to be charged to the county at large. The Mayor advised him that it was a County proposition and that all the cities are involved.

Mr. Hopper stated that he was an official of West Hoboken and wished to protest on behalf of the people there. The Mayor asked him whether he had any official resolutions or credentials substantiating his representing the people. He replied that he had not. The Mayor then advised him that his protest would only be considered as from an individual. Mr. Hopper stated that West Hoboken opposed the plaza because it would only benefit the jitney buses and give them a place for parking.

Mr. R. J. Rendall, representing the Five Corners Association, spoke in favor of the proposed improvement and also advocated the widening of Magnolia Avenue.

General William C. Heppenheimer of the Bergen Association spoke at length on the proposed improvement and set forth the necessity for its completion, and the benefits that would accrue to the entire county.

Counsellor John Warren stated that if the present proposed plan was carried out gores would be established in the lot lines and that future buildings would have to be erected on a slant. He favored the widening of the present bridge so as to make a straight thoroughfare.

Thomas M. Donnelly spoke in favor of the proposed improvement.

Mr. Robert Hoos, speaking for the Jersey City Chamber of Commerce, endorsed the proposed improvement as set out in Mr. Cohen's plans.

Mr. John O'Toole, representing the Public Service Corporation, stated that his company were large tax payers throughout the county; that they favored the proposed improvements, but would object to any unjust discrimination in creating jitney bus terminals on the new plaza.

Mr. Joseph O'Connor urged the appointment of a committee of twelve, by the County and City governing bodies, who shall work out a proper plan for the establishment of a civic center.

A written communication was received from Mayor William Rannanberg, Town of Union, stating that the Board of Council of the Town of Union enter their protest for the people of the Town of Union against any improvement of the Summit Tube Zone, which is not strictly of County benefit, unless the County pays only in the proportion that it benefits the County as a whole.

County Supervisor John O'Neill stated that the Boulevard Board, the County Counsel and himself have had several conferences regarding the proposed improvements and have considered the various changes suggested and that he is confident that earnest consideration will be given the changes and various suggestions.

In concluding the meeting, the Mayor thanked the large delegation of citizens that attended, and assured them that the various suggestions of the proposed plans for the plaza and the proposed Summit and Sip Avenue connections with the tube station, would be thoroughly considered.

The Mayor then announced that the regular meeting of the Board of Commissioners of Jersey City, set for July 25, 1922, at 3 P. M., would be proceeded with.

MEETING OF JULY 25, 1922

Present: Commissioners Fagen, Gannon, Moore and Mayor Hague.

Absent: Commissioner Dolan (excused).

By Commissioner Fagen:

Resolved, That the following ordinance do now pass:

An ordinance to improve all that part of Neptune Avenue between Ocean Avenue and Old Bergen Road, in the City of Jersey City, by construction of a sewer and improving with asphalt pavement on a concrete base, in accordance with the provisions of Chapter 152, of the Laws of 1917, and the various supplements thereto and amendments thereof.

Therefore, The Board of Commissioners of Jersey City do ordain:

1. To cause the present 15 in. vitrified pipe sewer in Neptune Avenue to be extended from its present terminus to a point about 110 feet south of Old Bergen Road, together with all the necessary manholes, receiving basins and appurtenances all in accordance with the established plan of sewerage.

The hearing on the application of Christian Feigenspan (a corporation), requesting permission to construct a wooden platform at premises 69-83 Bishop Street, having been adjourned to this time and place, the City Clerk called for anyone who might desire to protest against the granting of said application.

A representative of the Metal Thermit Corporation appeared and stated that since the time of registering their protest against the platform they have investigated and found that the platform will not cause interference or inconvenience to them; however, he requested that the permission be granted for an indefinite period, so that it may not conflict with any future plans for building that his company may have.

Commissioner Fagen stated that it was impossible to grant any permission for an indefinite period, and that the State franchise law specifies the twenty-year clause and also provides for an extension of time.

A protest in writing was received from Georfe L. Record, attorney for the Hudson Steam Laundry Company and the Union Towel Supply Company, property owners adjacent to the building of the applicant.

Newton H. Porter, attorney for the applicant, appeared and stated that he had communicated with Mr. Record, who is unable to be present at the hearing, and that Mr. Record's protest was made for the protection of the lot adjoining the premises of said Christian Feigenspan, in order that the rights of the Union Towel Supply Company could be preserved if they found it necessary to sell said lot and if it was affected by the construction of the platform.

Commissioner Fagen thereupon moved that the ordinance covering said application be proceeded with in accordance with rules and regulations governing such matters.

By Commissioner Fagen:

Resolved, That the hearing on the application of Christian Feigenspan (a corporation) for permission to erect wooden platform at their premises 69-83 Bishop Street, Jersey City, N. At this time Mr. Leo Feinen appeared before the Board and submitted an affidavit as agent for Philip Englehardt that he had filed application for permission to erect three-story brick store and dwelling on south side of Leonard Street, 80 feet east of Summit Avenue, to the Commission on Building Districts and Restrictions on February 27, 1922, and that application was approved by said board. He stalted that the owner had gone to expense securing estimates for the proposed building and the application has been held up, due to the adoption of the new zoning ordinances.

The Board discussed the matter and inasmuch as the plans were approved before the adoption of the new ordinances, the following resolution was introduced by Mayor Hague:

Whereas, Philip Englehardt, by Leo Feinen, as architect, appeared at the meeting of the Board of Commissioners of Jersey City on Tuesday, July 25, 1922, and made proof to the satisfaction of the Board that his plans for the erection of a three-story brick store and dwelling on the south side of Leonard Street, 80 feet east of Summit Avenue, Jersey City, and his application on same had been approved by the Commission on Building Districts and Restrictions of Jersey City, and had also been approved by the Superintendent of Buildings of Jersey City, on February 27, 1922, which date was prior to the adoption of the Zoning Ordinance; and

Whereas, The Board is advised that the Zoning Ordinance is not retroactive in its scope or effect and that the applicant legally is entitled to go on with the building operation; therefore be it

Resolved, That the approval and recommendation of the Commission on Building Districts and Restrictions and the Superintendent of Buildings be concurred in and permission be granted to said applicant for erecting his

building, in accordance with the plans and specifications, and application approved as aforesaid.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

At this time Counsellor Thomas F. Meehan appeared before the Board on behalf of the application of William J. Lucid for permission to erect stores at Union Street and Jackson Avenue, Jersey City. Mr. Meehan stated that the application was approved by the Commission on Building Districts and Restrictions of Jersey City on May 29, 1922, which was prior to the date of the passage of the amendment to the Zoning Ordinance.

Superintendent of Buildings John Saul stated that this application was erroneously approved by his office and that permission should not be granted. The Mayor replied that inasmuch as the application bears the approval of his department the application must be granted. Whereupon the following resolution was introduced:

By Mayor Hague:

Whereas, William J. Lucid, through his attorney, Thomas F. Meehan, appeared at the meeting of the Board of Commissioners of Jersey City on Tuesday, July 25, 1922, and made proof to the satisfaction of the Board that his plans for the erection of a two-story extension to the present four-story building, to have stores on first floor and clubroomos above, on premises known as Lot H, Block 1962, situate at Union Street and Jackson Avenue, and his application on same had been approved by the Commission on Building Districts and Restrictions of Jersey City, and had also been approved by the Superintendent of Buildings of Jersey City on May 29, 1922, which date was prior to the adoption of the amendment to the Zoning Ordinance; and

Whereas, The Board is advised that the Zoning Ordinance is not retroactive in its scope or effect and that the applicant legally is entitled to go on with the building operation; therefore, be it

Resolved, That the approval and recommendation of the Commission on Building Districts and Restrictions and the Superintendent of Buildings be concurred in and permission be granted to said applicant for erecting his building in accordance with the plans and specifications and application approved as aforesaid.

Adopted.

Yeas: Commissioners Fagen, Gannon Moore and Mayor Hague.

At this time Mr. H. F. O'Melia appeared before the Board and stated that plans for the welcome to be given the members of the Jersey City Baseball Club on their return to the city on July 27, 1922, are being successfully carried out; that the industries and various civic bodies are all co-operating and that from the present outlook the affair will be a success.

The Commission thanked M. O'Melia and his colleagues on the committee for their splendid efforts, and the Mayor directed that the city employes be permitted to leave their offices at 3 p. m. on that day in order to be able to attend the game.

At this time Mr. Cordes of 307 Old Bergen Road appeared before the Board of Commissioners and presented petitions signed by Mr. George Chapman of 303 Old Bergen Road and Mr. Conrad Oberlander of 311 Old Bergen Road, which stated that they were not opposed to the erection of a garage by Mr. Cordes at the rear of his property.

Superintendent of Buildings, John Saul, stated that the garage was started before they secured a permit and that the garage is in violation of the provisions of the zoning ordinance. It was not constructed as shown on the plot plan.

Mr. Langan, who appeared with Mr. Cordes, stated that the garage was 75 per cent. completed.

In conclusion the Mayor stated that as long as it was in violation of the zoning ordinance and does not meet

with the approval of the Superintendent of Buildings the application must be denied.

By Mayor Hague:

Resolved, That permission for the erection of a garage at the rear of 307 Old Bergen Road, as requested by Mr. Cordes, be and the same is hereby denied, and the permit issued heretofore for said garage be and the same is hereby ordered revoked.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

At this time delegations representing the Disabled American Veterans and the National Association for the Relief of Disabled Veterans appeared before the Board of Commissioners. Mr. Holmes, Mr. Dodd and Mr. Mullen urged the removal of the committee appointed by the Mayor to administer the funds for the relief of the disabled soldiers.

The Mayor stated that the Commission could not interest itself in the factional arguments now existing in the various organizations; that if the committee were removed at the present time the people would lose confidence in the soldier organizations and would refuse to help at the proper time when contributions are solicited. He stated that the committee was rendering efficient service and that the members he had appointed personally, namely, Miss McNaughton and Mr. J. F. S. Fitzpatrick, were above reproach. The other members were appointed at the suggestion of the soldier organizations, and were acceptable at that time. Mrs. D. J. Condon, chairlady of the Hospital and Relief Committee, American War Mothers, and Mr. Samuel Spingarn of the County American Legion, agreed with the Mayor's statements.

After lengthy discussion the Mayor assured those present that he would go into the matter thoroughly so that the soldier organizations will be satisfied and particularly so that the disabled men will be taken care of.

An Ordinance for the relief of Thomas Moran, of the City of Jersey City, in the County of Hudson and State of New Jersey, in relation to the encroachments of the buildings situate on the southwesterly corner of St. Paul's Avenue and Baldwin Avenue, in the City of Jersey City.

Whereas, It has been reported to the Mayor and Board of Commissioners of Jersey City by petition of Thomas Moran that there is erected a frame building on the southwesterly corner of St. Paul's Avenue and Baldwin Avenue, and a stone store building in the rear thereof, known as No. 399-401 Baldwin Avenue, which said buildings encroach along and beyond the westerly building line of said Baldwin Avenue, as follows:

The entrance to said No. 53 St. Paul's Avenue encroaches to the extent of two (2) feet upon St. Paul's Avenue, and the bay windows encroach to the extent of six and one-half (6½) and seven and one-half (7½) inches over the line of Baldwin Avenue, and the front of the building known as 399-401 Baldwin Avenue encroaches upon the westerly line of Baldwin Avenue to the extent of one and five-eighths (1⅝) inches on the southerly corner and two and three-eighths (2⅜) inches on the northerly corner, and in a straight line between said points, according to the survey thereof made by E. By Commissioner Fagen:

Resolved, That the following ordinance do now pass:

An Ordinance for the making of private connections with sewer, gas and water mains or conduits for wires in Oxford Avenue, between Bergen Avenue and Sackett Street, in the City of Jersey City, in accordance with the provisions of Chapter 152 of the Laws of 1917, and the various supplements thereto and amendments thereof.

Whereas, The Director of the Department of Streets and Public Improvements of the City of Jersey City has reported that an ordinance has been introduced at a meeting of the Board of Commissioners of Jersey City providing for the improvement of Oxford Avenue, between Bergen Avenue and Sackett Street; and

Whereas, There are already laid and existing in said streets sewer, gas and water mains and conduits for wires and there are building lots within said area to be improved which have no private connections with said sewer, gas and water mains or conduits for wires; and

Whereas, After said contemplated improvement to the above-described area has been made, no private connections with said sewer, gas and water mains or conduits for wires can be made without tearing up a portion of the proposed improvement which then shall have been completed; therefore, the Board of Commissioners of Jersey City do ordain:

1—That after notice shall have been served on or shall have been given, as provided by law, to owners or parties in interest of lands fronting on Oxford Avenue, between Bergen Avenue and Sackett Street, such owners or parties in interest shall, within the time mentioned in said notice, which shall not be less than thirty days after the passage of this ordinance, cause, at their own cost and expense, private connections to be made between each such lot of land of twenty-five feet or less in width, owned or controlled by such parties and the sewer, gas and water mains and conduits for wires in said streets.

HEARINGS

This time and place having been fixed for public hearing on the protest filed against the operation of a wet wash laundry at 173 Sherman avenue, Jersey City, N. J., the City Clerk advised the Board that he had caused proper notice to be forwarded to the attorney for the applicant and also to the representative of the protestants.

Counsellor Morris E. Barrison appeared for the applicant, Mr. Rosenthal. He stated that his client has purchased the property and has made contracts for an enterprise that will cost $75,000; that it will not be a wet wash laundry, but a modern up-to-date family laundry such as Steele's although not as big; that the property will not be depreciated; that right next to their property is a stable and garage housing seventy to seventy-five teams and wagons and automobiles; that the building will be an improvement to the neighborhood.

The Mayor stated that as a matter of fact it was going to be a laundry and the objection is to a laundry of any kind. Counsellor Louis Hansen for the protestants replied that such was the objection.

Counsellor Barrison stated that it was not a new building to be erected, but the old building improved.

The Mayor stated the people of that neighborhood should have the right to say what kind of business should be located there and they are objecting to that kind of business and they must be heard by the Board.

Counsellor Hansen stated that in his opinion the large demonstration of protestants is sufficient to indicate just what the line of protest is; that the property is directly above Bowers street which is really part of Lincoln Highway; that it is a residential neighborhood, no stores or business of any kind within a radius of one half a mile within that particular district; that the business is going to depreciate property and increase fire insurance and that the people are only interested in self protection.

The Mayor asked the applicant where he lived. Mr. Rosenthal stated that he lived at 219 New York avenue, about three blocks up from the proposed laundry. Counsellor Barrison stated that the other partner lived on Troy street.

Commissioner Gannon stated that he does not remember ever seeing such a large number of protestants on any one matter and that he fails to see the difference between a laundry like Steele's and a wet wash laundry.

Mr. Edelstein, one of the partners in the laundry, stated that it was going to be a family laundry, that the clothes would be washed, ironed and sent back to the people in good shape. Commissioner Gannon stated that as a matter of fact everything will be done there and heavy irons and machinery will be used. Mr. Edelstein replied that it will be done as quiet as can be; that he has been in the business nine years and has lived here nine months; that the Steele laundry is in a residential neighborhood.

The Mayor replied that some of the people have lived in the neighborhood for fifty years. Mr. Edelstein stated that there were stables and garages there. Counsellor Barrison stated that the neighborhood is not zoned as residential.

In conclusion the Mayor stated that the Board of Commissioners represented the people and that when such a large number protest, their side must be considered; that it is unfortunate for the applicant that the permission cannot be granted to locate in this vicinity; that the side of the protestants who have probably invested their all in establishing homes cannot be

ignored. Thereupon the following resolution was moved by the Mayor.

By Mayor Hague:

Whereas, The Board of Commissioners of Jersey City held a public hearing this day in the matter of the protest filed against the operation of a wet wash laundry to be located at No. 173 Sherman avenue, Jersey City, N. J., at which hearing a large number of the protestants appeared and through counsel stated that the said laundry would depreciate their property and increase fire insurance; and

Whereas, It is the opinion of this Board after hearing arguments set forth by counsel for the applicant and counsel for the protestants, that the said protestants should be sustained; therefore be it

Resolved, That the application of Mr. Rosenthal to operate a laundry at No. 173 Sherman avenue, Jersey City, N. J., be and the same is hereby denied for the reason that it will cause depreciation of the residential property in the neighborhaad and increase the insurance rate.

Adopted.

Yeas: Commissioners Fagen, Gannon and Mayor Hague.

Nays: None.

At this time Mr. Charles Holmes, Eugene McMullen and J. Arthur O'Toole appeared before the Board for the D. A. V. and asked the Mayor what had been done with reference to the removal of the Committee on Relief for the war veterans. Mr. McMullen produced an affidavit supposed to have been signed by Martin Stanway setting forth his case. He also read a letter from Mr. Harry McCarren and a communication signed by ten persons who heard Mr. Fields make improper remarks concerning the wife of Martin Stanway and the reason Mr. Stanway was cut off from the relief committee benefits.

The Mayor asked Mr. McMullen how many soldiers had received relief from the committee. Mr. O'Toole replied about fifty. The Mayor then asked if there were only three complaints according to the affidavit and letter. Mr. McMullen replied that he could get at least ten. Mr. O'Toole said that in his opinion the committee was guilty of maladministration and should be removed.

Mrs. Anna Shanahan, representing the War Mothers, appeared and stated that she was a gold star mother; that she lost her oldest boy in the war; that she has helped Mr. Stanway; that several mothers have helped him, but the boy is easily led; that the veteran McCloskey was nothing but a panhandler and will not work; that she has been doing relief work for the past eighteen months; that there is a certain clique operating; that Mr. Dodd is receiving $167.50 a month and his wife is also working; that she will stand by any of the boys who are right.

The Mayor asked Mrs. Shanahan if it would be injurious to remove the committee, and she replied that it would be injurious.

The Mayor stated that everything must be considered; that the mere fact that two or three complained of discrimination while fifty or sixty others say that the committee acted honorably and just—that must be taken into consideration.

Mr. George Murray, Overseer of the Poor, stated that he had known Mr. Stanway for the past fifteen years; that he caused him and his wife to be sent to the hospital for treatment.

Mr. Stanway appeared and in reply to questions by the Mayor replied that he did not make the affidavit; that he does not know what it contains, and that Mr. O'Toole prepared it last night. He admitted, however, that he signed it, although he could not read it. Mr. O'Toole stated that Mr. Stanway's hearing was bad. The Mayor asked whether any one had read the affidavit to him (Stanway). He replied that Mr. O'Toole did, and he told him just what happened.

Mr. McMullen stated that the time for decision by the Mayor was up and that at midnight petitions would be sent out to the people of the city and public hearings would be held for the

purpose of having the committee removed.

In conclusion the Mayor stated that he refused to remove the committee.

Counsellor Harry Lane appeared before the Board at this time on behalf of the Bergen and Central Avenue jitney men and requested that they be permitted to continue on the end of the route and carry passengers from Jersey City to Columbia Park, and likewise take on passengers at Columbia Park and take them where they want to go in Jersey City; that it will benefit the people of the Lafayette section and those living along Central Avenue in that they will be able to reach Columbia Park for one fare, that is, ten cents.

The Mayor asked what the authority of the Board would be in the matter. Commissioner Gannon replied that under the Kates Act the Board has no authority to change a route. Counsellor Lane stated that it would be all right unless the Board interfered or the jitney inspectors stopped them, and that the reason no permit is required from the Public Utility Commission is that the jitneys in no wise go near or parallel any trolley line.

Counsellor William George appeared on behalf of the Hudson County Bus Owners' Association and stated that the Boulevard line was the best jitney line in the State and was giving complete satisfaction to the patrons; that they started in the lean days, and now it has been built up and a fair living is being made.

The Mayor asked Counsellor George to show where it is going to be injurious to the Boulevard line in dollars and cents, and where they are going to draw from that line and endanger that particular line.

Counsellor George stated that eleven buses are taken off every day; that they run on a one and a half minute schedule; that they are giving the people just what they ask; that probably ten other buses will have to be taken off if some one else comes in there, and that they are just about making a living.

Commissioner Gannon asked how many buses were on that line. Counsellor George replied about 33, and that arrangements have been made to take on new buses, probably eight or nine.

The Mayor stated that the Boulevard line is a credit to the city and it would not be right to endanger that line. Counsellor Lane replied that he agreed with the Mayor, but that he could not see how it can affect them; that it might only take about one hundred feet from that line at the most; that if the people living in the Lafayette section want to go to the park they must take a Belt Line car and transfer to the Jackson Avenue, and then take the Summit car for a total of seventeen cents, as against the ten-cent fare on the bus; that no passengers will be taken on as far as West Hoboken is concerned; that people desiring to go to the park from the tube would use the Boulevard bus instead of coming down to the Summit Avenue and then riding around through West Hoboken.

Thomas Kitrick, Supervisor of the Jitney Bureau, stated that the Boulevard line had 33 buses, and with the new ones the total would be about 40 or more; that the traffic is well taken care of and there are no complaints; that with the addition on Bergen and Central Avenues it would bring it up to 70; that while there may be a good living for 40, it would be unfair and unjust to put 70 up there.

Mr. Wilson of the Hudson City Board of Trade appeared and urged the Board to permit the Bergen and Central Avenue jitney men to continue on to Columbia Park.

In conclusion the Mayor stated that he would like to obtain the legal opinion of the Corporation Counsel as to the legal authority of the Board and that Counsellors Lane and George could do the same; that the Board is willing to help the jitney men, but everything must be considered, and that at the meeting of the Board to be held next week the matter will be decided.

At this time Mr. Stephen Toth appeared before the Board with reference

to securing permission to construct garages at 58 Yale Avenue.

The Mayor directed the City Clerk to obtain a report on the matter from the Superintendent of Buildings, so that the matter may be thoroughly discussed.

FRANCHISE HEARINGS

This time and place having been set and advertised for the purpose of hearing objections to the application of Messrs. Hyman, Jaffe & Barbash requesting permission to vacate Stegman Street in Jersey City, for a distance on the southwesterly side thereof 1883.40 feet and on the northeasterly side thereof a distance of 1887.98 feet, west of the westerly line of Hudson Boulevard, and also for the considering of the said ordinance and determining upon its adoption or rejection, the City Clerk read the notice of hearing and then called for anyone who might desire to be heard in the matter.

Counsellor Mark Sullivan appeared in behalf of the applicants.

Counsellor Miller appeared and stated that he represented the Gantz Estate; that their property ran 1002 feet on the south and on the north 922 feet; that it fronts on Stegman Street; that the closing of this street would be a serious detriment to their property which runs half way between the Boulevard and West Side Avenue, because the approach to the property by the general public is more by the Boulevard, and this closing would cut that off. That their property consists of Plot 7, Block 1282, frontage of 922 feet on Stegman Street; that the estate paid the assessment for the opening of the present

street and can see no good reason for having it changed.

Counsellor Sullivan stated that the Gantz tract cannot be used as it is at present; that a street must be cut through lengthwise; that the benefit to the entire section would clear away the small injury that would be suffered by some property owners; that the houses on Van Houten Avenue back up on Stegman Street; that Van Houten Avenue will have to be continued all the way down and that will give the Gantz Estate a frontage for their lots and frontage for the rest of the lots.

Commissioner Fagen stated that if the street is vacated every one of the property owners will get twenty-five feet for nothing; that the Gantz Estate will also receive the same; that this particular section is in the 320-acre area that is to be developed; that it touches on the Fisk Street Sewer Development area in which he is very much interested and which is a very important project.

Counsellor Sullivan stated that his clients proposed to put in a 65-foot street right down the middle of their property, with parkways in the center; that it will bring more ratables to the city than if little narrow streets and alleys were run through there; that the public school is going to be erected there, also the State Normal School and the proposed high school is in this vicinity; that the Gantz Estate will acquire 25 by 922 feet in the closing of Stegman Street which will enable them to cut through streets and further develop their property.

Counsellor Miller stated that the Gantz Estate paid for and later dedicated Stegman Street to the City, and he cannot see why they should have another street there.

Counsellor David A. Nimmo presented a protest purporting to have been signed by citizens and taxpayers of the city owning or having interest in property located in blocks 1282 and 1283, stating that they vigorously object to the closing and vacating of Stegman Street, because they will suffer great damage and injury.

The Mayor stated that the important thing to consider is the individual property owner that would be affected; that the applicants propose to go in there and spend a large sum of money, put in a roadway with parkways, as against the Gantz Estate, which will leave their property as it is probably for the next ten years for speculative purposes; that it will be a big improvement there and that extensive development will take place in that vicinity.

Counsellor Miller replied that the Gantz Estate has been in the hands of brokers and agents for the past year; that some of the property now held by the petitioners was purchased from the estate; that they are disposing of the estate property as rapidly as possible; that the estate has always complied with every demand of the City and have always paid the taxes on their property; that they do not stand in the way of development, and that the City should not interest itself on behalf of each individual proposal, which, in this case, is a selfish motive on the part of the applicants.

The Mayor stated that the City wants such improvements and that vacant farm land cannot be held as against an improvement which will aggregate over half a million dollars; that there are four million dollars of schools going up there and improvements are essential in the section.

Counsellor Miller stated that being an estate there are trustees; that it is impossible for them to develop the property and that their powers are to dispose of it for the best value.

The Mayor stated that this was not an issue between Counsellor Sullivan and Counsellor Miller; that it involved the individual property owners, who claim that it will destroy their property.

Counsellor Sullivan stated that with the exception of the house belonging to Mr. Kerpen, the florist, there was not a single house on Van Houten Street;

that the houses were located on Van Houten Street, the rears of which were on Stegman Street; that when the street is closed these houses will get a 25-foot strip of land at the rear.

Commissioner Gannon stated that the additional strip would mean nothing because the exit would be shut off in case they wanted to put a garage at the rear of the property.

Counsellor Sullivan stated that in his opinion the zoning ordinance would not permit of such garages near the building line on Stegman Street.

The Mayor then called for those individual property owners on Van Houten Avenue who object to the proposed vacation.

Frank Kerpen, Jr., 4 Van Houten Avenue, appeared and stated that he proposed to build a garage there.

D. Hagopian, 6 Van Houten Avenue, stated that he has a garage there now and the closing of the street will prevent him from getting in and out.

Miss Lillian Matthews, 2 Van Houten Avenue, stated that she preferred to have the street open; that she was speaking for her sister, who owned the property, but who is at present in Washington; that they felt it was important to have both outlets, one on Van Houten Avenue and the other on Stegman Street; that at some time they wanted to build a garage.

Mrs. Paulsen appeared for J. A. Paulsen, 12 Van Houten Avenue. She stated that they bought the property about a year ago and wanted to put a garage there.

Commissioner Fagen stated that the sidewalk is about fifteen feet deep and they will have to excavate in order to get a garage there if possible.

Counsellor Sullivan stated that several persons who signed the protest had reconsidered their objections and were present here.

Mr. I. N. Schwartz, 1973 Boulevard, stated that he was opposed to the vacation, but since learning that he will be given 15 feet, he withdrew his protest.

Louis Weilbacher, 16 Van Houten Avenue, and Mrs. E. J. McDonald, 18 Van Houten Avenue, also withdrew their protests.

Mrs. M. Teschner, 14 Van Houten Avenue, stated that she did not care; that she was satisfied either way.

Commissioner Gannon asked her why she signed the protest. She replied that he did want a garage, but if she got the 25 feet she was satisfied.

Counsellor Sullivan asked Mr. Kerpen if he would still object if Sterling Avenue were cut through. He replied that she did want a garage, but if she plished first.

Mr. Samuel Kerr, representing Ryerson & Sons Co., appeared before the Board and stated that his company was in favor of the project.

Commissioner Fagen stated that development is going on in this entire section or tract of land; that the Gantz estate sold to Mr. Broadman the property north of Culver Avenue, upon which two-family houses are going to be built and the property developed to the extent of a million and three-quarters dollars, and also a sixty foot street to be cut through; that there is great activity in this section and the new sewerage system will add greatly to the development; that the matter must be adjusted as soon as possible, because the sewer improvement is under way and that section will be reached soon.

In conclusion the Mayor advised those present that the matter would be referred to Commissioners Fagen and Gannon for report back to the Board and that the hearing would be adjourned for a period of three weeks.

By Commissioner Fagen:

Resolved, That the hearing on the application of Hyman, Jaffe & Barbash for the vacation of Stegman Street in Jersey City for a distance on the southwesterly side thereof of 1,883.40 feet and on the northeasterly side thereof a distance of 1,887.98 feet, west of the westerly line of Hudson Boulevard, be and the same is hereby adjourned and continued for a period of two weeks to Tuesday, August 29, 1922, at 3 p.m., in the Assembly Chamber, City Hall, Jersey City, N. J.

HEARINGS

At this time Mrs. R. E. Taylor and Mr. George M. Wormann appeared before the Board and presented a written protest against the operation of a garage at 93 Clifton Place as an additional protest against the maintaining of a 500-gallon gasoline tank on the premises. Mr. Wormann stated that at the previous hearing before the Board it was agreed that the applicant and the protestants were to agree on the location of the tank, and that, contrary to this agreement, the tank was installed last Saturday afternoon in the place originally planned.

Commissioner Gannon suggested that the matter be referred to the Law Department, and, further, that the Department of Public Safety, through the Bureau of Combustibles, be requested not to issue a permit for the putting in of gasoline in that tank.

The Mayor stated that in his opinion it is not proper for applicants to come before the Board and agree to do certain things and then ignore them.

Mr. Wormann advised the Board that the Gulf Refining Company paid for the tank and that the law required three feet of concrete to be put on top of the tank.

The Mayor directed the City Clerk to communicate with the Gulf Refining Company and advise them that it is against the wish and direction of the Commission and that no permit will be issued for putting gasoline in the tank.

This time having been fixed by the Board of Commissioners for determining as to whether or not the Central-Bergen Avenue Jitney Line shall be permitted to continue the route to Columbia Park, Counsellor Harry Lane appeared before the Board representing the Bergen Avenue Line and Counsellor William George appeared for the Hudson County Boulevard Line. Counsellor Lane reiterated his statements made at the last meeting of the Commission and also requested that permission be granted for one week to continue the route so as to prove that the Boulevard line will not be injured in any way.

The Mayor asked Counsellor George what effect it would have if limited permission were granted to continue to the park for the balance of the summer.

Counsellor George stated that it would result in irrevocable and irreparable loss to his clients. He stated that by some arrangement with the park owners the Bergen Avenue men will park twenty cars in the park and then on the return trip they will be able to load inside while the Boulevard men will have to wait on the Boulevard and take what is left.

The Mayor stated that he thought they were going to pick up passengers in West Hoboken. Counsellor Lane replied that they could not do that under the law.

Commissoner Moore also suggested that if the busses are permitted to go up to the park the Bergen Avenue section will suffer for lack of facilities.

Supervisor of the Jitney Bureau Thomas Kitrick stated that he had made a careful investigation of the matter and found that the traffic to

the park is taken care of in first-class shape and the Boulevard men are earning a fair living, and if the Bergen Avenue jitneys go up to the park it will increase the number of busses to 65 or 70 and there would be practically nothing in the way of a living for the men. He also stated that the Boulevard line was classed as the second best line in the United States, in a publication devoted to motor bus transportation. Counsellor George stated that the line should be considered as the best in the United States.

The Mayor stated that he was inclined to help the Bergen Avenue men continue the route to the park provided they did not go into the park and pick up the greatest portion of the passengers on the return trip, that such action would create disorder and friction between the two lines and would naturally result in playing into the hands of the trolley company; that is, people would abandon the use of the busses and travel by trolley.

Counsellor Lane asked if there was any objection to making a test case.

The Mayor stated that, although the law may be with him, the Commission would have to use their power and revoke licenses if the Bergen Avenue men attempted to continue to the park, because the Boulevard line must be protected just the same as the other lines. In conclusion he moved that the application to continue the Bergen-Central Avenue line to Columbia Park be denied.

By Mayor Hague:

Resolved, That the application of the Bergen-Central Avenue Jitney Line owners for permission to continue the route to Columbia Park and return be and the same is hereby denied.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

Nays: None.

After the hearing had been closed Counsellor Lane returned and stated that he had been requested by his clients to ask for permission to carry passengers to the park and not pick up passengers from the park on the return trip.

The Mayor advised him that the jitney men might agree to do that, but would not keep it up and therefore it is advisable to deny the permission to continue to the park.

Counsellor Morten appeared before the Board at this time with reference to the rezoning of the block on Bergen Avenue between Virginia and Ege Avenue. He stated that this is the case where a moving picture theatre was proposed to be erected and that the Commission at the last hearing agreed to assist him in developing the property, but would not grant a permit for the theatre; that there are several stores and automobile garages on the block; that his clients want to build stores with brick dwellings above.

Mrs. Sherman Rapp, 343 Bergen Avenue; Mrs. Adolph Stadlen, 347 Bergen Avenue, and Mrs. Giblin, 349 Bergen Avenue, appeared before the board and stated that both sides of the street were residential and that if one side was permitted to build such buildings the other side should also be permitted.

Counsellor Leon Abbett appeared for Mrs. Kajanjian, 351 Bergen Avenue, who also objects to the proposed change.

Counsellor Morten stated that his clients own 75 feet on the block; that they went to great expense in preparing plans for the theatre and then when it was denied they wanted to build for business and that was also denied; that they are tied up and can not even dispose of the property; that it can not be put to any other use than business; that the other side of the street did not contain any stores.

Mrs. Rapp stated that some time ago they applied for permission to erect garages on their property and were told that the zoning ordinance would not permit it.

Rev. Frank McLean appeared and stated that Pastor Everett of the First Congregational Church was on his vacation and that he was appearing for him; that the church trustees were out

of town and that they have not had an opportunity of investigating the matter; that he desires to object so as to have an opportunity to go over the matter and get in touch with Pastor Everett.

In conclusion the Mayor advised those present that the matter will be adjourned until next Tuesday at 3 p. m.

At this time Mrs. Meyers, owner of 33 Montrose Avenue, appeared before the Board and requested permission to install two windows in the premises at 33 Montrose Avenue; that there has always been a store there; that the last occupant did not require large windows and small windows were used; that now a new tenant desires to move in and use the place as a dairy and that she is desirous of fixing up the store in good shape and install two large windows.

The Mayor advised Mrs. Meyers that the permit would be granted if the premises have always been a store, but if not the permit could not be granted in view of the fact that the Zoning Commission had ruled against it. In conclusion, the matter was referred to the Superintendent of Buildings for investigation and report.

At this time Mr. Steve Toth appeared before the Board and requested information as to what action had been taken on his application for permission to erect garages at the rear of 56-58 Yale Avenue.

The Mayor recommended that the matter be referred to the Corporation Counsel for opinion, in view of the fact that the application had been filed prior to the adoption of the amendment to the zoning ordinance.

IMPROVEMENT HEARING

This time and place having been

set for continuation of hearing on the ordinance for the construction of Sewer in Elm Street and Hudson Boulevard, etc., requested that all persons interested in said improvement declare their intentions and reasons therefor, either in favor of or against the same, and Pawel Lenioj and P. Goggarty, Jr., affected on Elm Street appeared and stated they were against the improvement, as they could not afford the cost of same. Mrs. Sarah Kelly, affected on Elm Street, appeared for it, together with the petitioners for said improvement.

William Ormsby, John Wurtz, Carl S. Tinnessen, Louis Frick, Henry Ripp, Peter Kruger, George Wirtz, G. M. Christensen and William T. Eileman, affected on the Hudson Boulevard, appeared against the improvement, stating that they have private sewer connections.

Commissioner Fagen announced that when the private sewer was constructed on the east side of the boulevard the property owners waived their right to protest against the construction of a public sewer which would affect their property, but it now appears that a sewer in Elm Street is a necessity to the public health and welfare of the community, and as the situation now stands this matter will be laid over for a period of two weeks for further investigation and report.

From John Musico, requesting permission to alter premises 104 Storms Avenue.

Received.

At this time Counsellor Morten appeared upon continuation of hearing on his application to rezone that block on Bergen between Virginia and Ege Avenues for business purposes. He stated that he feels that he would be given consideration on this application because of the withdrawal of his previous application to erect a moving picture theatre on the premises; that there are three things that the Commission should look at—safety, health and welfare of the community. This is not a question of safety, nor health; it is a question of welfare.

Mayor Hague stated in the passage of the zone ordinance all conditions were considered, and there are a great many applications being made for change of districts, which must of necessitly be denied. There is a principal involved, and it is a serious

proposition to make any change on this block, and it seems almost impossible to vote favorably on your application. Thereupon, the Mayor moved the denial of the application.

By Mayor Hague:

Resolved, That the application of Louis Morten to redistrict that block on Bergen Avenue between Virginia and Ege Avenues, from residential to business purposes be and the same hereby is denied.

Hearings have been set at this time to consider the protests of the several property owners against the maintenance of a public garage and gasoline station at 15 Gardner Avenue now conducted by a Mr. Cox.

Mr. McMahon appeared with a protest signed by several property owners whose property immediately adjoin the said garage and stated that the building is a fire hazard and very dangerous to the surrounding property; that it will cause a depreciation in the value of their properties; that the fire insurance rates of adjacent property have

been increased; that the nuisances created by gasoline fumes, exhausts and noises from making repairs, etc., during the late hours of the night are a detriment to the neighborhood.

Mr. Soffield appeared for Mr. Cox and stated that he has a petition signed by property owners and residents on Gardner Avenue who have no objection to the garages; that there are five stables and six garages in this neighborhood.

Mayor Hague stated that Mr. Saul's report shows that this is a direct violation of the zoning law to carry on a business enterprise in a residential district, and it is a proposition which cannot be permitted; that it is the duty of this Commission to protect the interests of the public, particularly so when they protest in such a vigorous manner. The zone ordinance has been adopted to restrict such districts as this from being invaded with garages for commercial purposes.

Mr. Soffield stated that the property was taken over to be converted into a garage, and they have been going along on the say so of the Fire Department, they to fireproof the building before they could obtain a permit for a garage.

Commissioner Fagen stated that this neighborhood has large new apartment house sites, and the converting of an old stable into a public garage in a residential section should be forbidden. We want to maintain our residential sections, which is the reason we adopted the zone ordinance with restriction in certain districts. It is for this purpose that we want to build up our city. This section is in the center of our residential district, and it is ashamed to have this district used for commercial purposes, and I would move that the permit for gasoline station be canceled and that the Law Department be directed to proceed to restrain this garage from operating.

By Commissioner Fagen:

Resolved, That permit issued to Charles Cox to maintain a gasoline tank at 15 Gardner Avenue be and the same is hereby canceled; and further

Resolved, That the Law Department be and is hereby directed to take such action as to restrain the operation of garage at 15 Gardner Avenue, which is in violation of the zone ordinance.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

Nays: None.

Mayor Hague announced that if it was necessary that Mr. Cox would want to locate somewhere else in a business neighborhood he would allow them sufficient time within which to move their business, allowing them one month or a month and a half at least, to which Mr. Cox agreed.

At this time Emil Moch, president of the A. & M. Motor Bus Transportation Company, requested permission to maintain a Pullman car motor bus on the Summit Bridge, on the Boulevard, at some suitable place, it being his intention during the summer months, beginning Decoration Day, 1923, to make daily trips to Atlantic City at a reasonable fare; that he has had considerable experience in the motor bus transportation and feels that a bus line of this character would meet with success.

By Mayor Hague:

Resolved, That permission be and the same hereby is given to the A. & M. Motor Bus Transportation Company, Inc., to park one (1) motor bus at the Summit Bridge, on the Hudson Boulevard, for the purpose of operating a motor bus transportation line from Jersey City to Atlantic City, commencing Decoration Day, May 30, 1923, and closing on Labor Day, 1923.

Whereas, Since that time the Water Conservator through an inspection has found that the same was in error and excessive due to using the loss or inaccuracy of 52 per cent. as determined by our test under date of September 26, 1921, and applying this loss to the total registration as shown by meter from March 12, 1915 (date of installation), to September 26, 1921 (date of test), which should have only been applied to the registration for periods when the proportional or main line meter was found stopped or not registering; and

By Commissioner Gannon:

Resolved, That the following ordinance do now pass:

Ordinance appropriating the sum of $1,500,000 for the water supply system of the city and authorizing the issuance of water bonds for said purposes.

Recitals:

The City of Jersey City has a water supply derived from beyond the municipal limits, and it has become necessary in order to protect such water from pollution to construct within the territory from which such water is derived and through which it flows a system of drains and sewers for intercepting, taking off and disposing of all sewage and other polluting matter, the said system to consist of a trunk sewer from Dover to Boonton and a sewerage disposal plant at Boonton below the dam in the Rockaway River.

The storage reservoirs of the water supply system of the city are now inadequate, and it is advisable to acquire a pond known as Split Rock Pond, being a body of water covering about 315 acres and lying in Rockaway Township, Morris County, and property adjacent thereto, and to convert such pond into an additional storage reservoir for the city.

In order to obtain the moneys to finance the said purpose it is advisable to issue $1,500,000 water bonds of the city in pursuance to an Act of the Legislature of the State of New Jersey entitled "An Act to authorize and regulate the issuance of bonds and other obligations and the incurring of indebtedness by county, city, borough, village, town, township or any municipality governed by an improvement commission," approved March 22, 1916, constituting Chapter 252 of the Pamphlet Laws of 1916, as amended.

Now, therefore:

ORDINANCE

The Board of Commissioners of the Mayor and Aldermen of Jersey City do ordain:

Section 1. The following sums are hereby appropriated for the following purposes:

(a) $1,100,000 for the protection of the water supply system by the construction of the trunk sewer and disposal plant referred to in the preambles hereof.

(b) $400,000 for the acquisition of Split Rock Pond (referred to in the preambles hereof), the acquisition of property adjacent theerto and the conversion of said pond into a storage reservoir.

Sec. 2. $1,500,000 water bonds of the City of Jersey City are hereby authorized. Said bonds shall be dated September 1, 1922, and shall mature as follows:

$37,000 thereof on September 1 in each of the years 1923 to 1942, inclusive; and

$35,000 thereof on September 1 in each of the years 1943 to 1962, inclusive; shall bear interest at the rate of four and one-half (4½%) per centum per annum, payable semi-annually on the first days of March and September in each year, and shall be of the denomination of $1,000 each.

Sec. 3. The money to be raised by said bonds shall be applied to the payment of the cost of the properties and improvements described in the preambles hereof and for which the appropriations of this ordinance are made, and in case temporary indebtedness is incurred for said purposes, to the payment of any such temporary indebtedness, and also to the cost of this issue of bonds. The amount of money necessary for said purpose is $1,500,000.00.

Section 4. The probable period as determined by this Board (within the limitations of Section 4 of this Act referred to in the preambles hereof) of the usefulness of the properties and improvements for which the bonds are to be issued in forty (40) years in each case, and the average thereof is forty (40) years.

Sec. 5. In anticipation of the preparation of the definitive bonds of said issue the proper officials of the city are authorized to issue interim certificates or interim bonds, upon receipt of payment in full for said bonds.

Section 6. The faith and credit of

the City of Jersey City are hereby pledged to the payment of the principal of said bonds and the interest thereon and unless the said principal and interest is otherwise paid, an amount sufficient for said purposes shall be inserted in each annual budget of the City of Jersey City, and taxes shall be levied and collected sufficient to meet said principal and interest.

At this time Counsellor M. E. Barison and Mr. Rubens, manager of the Hudson Wholesale Grocery Company, Inc., and numerous others appeared, stating that the old Franco-American building on Central and Manhattan

Avenues was leased by them, and part of the building has been rented to this wet wash laundry plant to which certain residents in the neighborhood are objecting.

Mr. Barison stated that since there had been so much vacant floor space available at this building which can only be used for factory or storage purpose this wet wash plant was induced to locate there. At the time objection was made last Tuesday we had no chance to dispute what was said. We feel that at this time we should be heard in the matter. This plant has been ordered to stop work pending investigation by the Health Officer. The situation at the present is such that we feel they should be permitted to install their machinery so as not to delay matters, pending final action, and should there be any serious objections to the plant they would stand the responsibility. If this plant is stopped as it has been, there will be an injustice done, as matters will be placed at a standstill.

Mayor Hague stated that whatever might be done at this time will not help matters along. Until such time as the protestants appear the matter cannot be adjusted to satisfy all concerned. This hearing will be continued next Tuesday, September 12, 1922, at 3 o'clock p. m., when the protestants will be notified to appear, and your side of the case will be heard to better advantage, and final action will be taken.

This time and place having been set for public hearing upon the protest of residents and property owners against the establishment of wet wash laundry on Manhattan Avenue.

Mr. Barison appeared representing the applicants, the Hudson Grocery Company, owners of the Franco-American Building. Mr. Barison stated that he represents 220 retail grocery stores, that the only persons who might be hurt by the establishment of this laundry would be the people who reside on that one block on which the laundry will be located; that the large gathering present cannot all be affected by it; that all have not any direct interest in the matter; that if there is a nuisance in the conduct of the laundry surely the Board of Health and the Police Department could take care of the situation.

Mayor Hague stated that a great many of these people live in this vicinity, that you are bringing the nuisance to them and bringing an undesirable business into their neighborhood.

Commissioner Fagen stated that this section is zoned for residential purposes; 100 feet east of Central Avenue is for business purposes, and the protest made by these residents must be sustained, as we are bound to the zone ordinance making this section a residential district. This business is to be located 100 feet east of Central Avenue, and therefore no business enterprise can be conducted in a residential section, and would therefore recommend that the operation of the wet wash laundry on Manhattan Avenue be discontinued and that no permit be issued therefor.

Mr. Rubens of the Hudson Grocery Company stated that he would abide by the decision of the Board in discontinuing operations, but could not speak for the party operating same; that he would consider the matter closed.

Counsellor Frank J. Higgins appeared, representing the several jitney owners' associations, and requested that arrangements be made whereby the jitney owners would be permitted to display advertising cards inside of their busses; that the class of busses in operation at the present time are costly buses and up to date and are so constructed to display advertising cards; that there is a section in the jitney ordinance which prohibits the display of advertisements in busses, which section could be repealed and provision made to allow the display of show cards inside of busses.

Mayor Hague suggested that the matter be referred to the Corporation Counsel, and that Mr. Higgins together with Mr. Record go over the situation and adjust matters.

Whereas, Before duplicate check can be issued it will be necessary to file with the State Treasurer an indemnity bond executed for double the amount of said check, to wit, $36,213.24, and

Whereas, The State Treasurer has notified the Director of Revenue and Finance that the bank was notified on July 10th, 1922, to stop payment on this check and the Corporation Counsel has advised the Director of Revenue and Finance that the bank would be liable should this check be cashed on a forged indorsement, and

Whereas, The State Treasurer has further advised the Director of Revenue and Finance that should the City adopt a resolution holding the City liable "with the same obligations and conditions in favor of the State Treasurer as would be in an indemnity bond if given," said resolution would be acceptable to him in lieu of Surety bond; be it therefore,

Resolved, That in view of the above circumstances and in the interests of economy, the Director of the Department of Revenue and Finance be and he is hereby authorized to execute bond indemnifying the State Treasurer against duplicate payment of this check, said bond to be in the sum of Thirty-six Thousand, Two Hundred Thirteen Dollars and Twenty-four Cents ($36,213.24), representing an amount double the face value of the lost check, and be it further

At this time Counsellor Frank Higgins appeared, representing sixteen jitney owners operating in Jersey City, requesting that the specifications heretofore adopted by this Board be altered, amended and changed so as to meet the minor irregularities discovered by the City's Mechanical Supervisor in the construction of the busses proposed to be operated on the Montgomery and Greenville Lines.

Mayor Hague inquired of the Mechanical Supervisor if the irregularities as discovered were such as to consider them dangerous to the traveling public or hazardous, to which Mr. Treacy responded that they were only minor, such as the height of the chassis from the ground and height of the ceiling, and that there is nothing hazardous in the construction and material used which would endanger the traveling public.

Mayor Hague stated that he was willing to co-operate with the jitney bus owners, and as long as the changes required in construction were nothing that would affect the traveling public, the Commission would be willing to abide to the changes necessary. Thereupon, Mayor Hague referred the matter to the Law Department to prepare the necessary resolution to amend the specifications heretofore adopted.

Introducing an ordinance entitled: "An ordinance for the relief of Abraham Stein in relation to encroachment of building situated at the northwest corner of Colgate and Mercer Streets, and known as lot C, in Block No. 427, on Official Assessment Map of Jersey City."

By Commissioner Fagen:

Whereas during 1922 the Director of Streets and Public Improvements directed a field survey of Water Bureau and the annual audit of Water Books looking to the installation of a new system of checks and balances in the accounts, and to the correcting of the water waste. While this was going on, a defalcation was discovered which necessitated the turning of all activities toward an investigation of all records. It was then determined by the director to make a complete turnover to a new system in all branches of the Water Department, so that the business of the Water Department would not come to a standstill. It must be done with speed, and by outside assistance working independent of City forces; and

Whereas, The Director has made inquiries of several companies doing this kind of work and found that the Library Bureau of Newark was only one then equipped to do such work. He has also been informed by the City Auditor that it is impossible to collect data upon which bids might be solicited because of the many ill-kept books that led up to the Record Books and of the Record Books themselves, and that the service to be rendered would be of a peculiar and confidential nature; therefore

Resolved, That upon the recommendation of the Director of Streets and Public Improvements, it is hereby declared to be the judgment of this Board that an emergency exists as is contemplated by Section 1, Article II, Chapter 319, Laws 1920, and that said work and services be contracted for without advertisement, and that the same therefore shall not exceed Fourteen Thousand Dollars.

IMPROVEMENT HEARINGS

This time and place having been set for continuation of the hearing on the final passage of an ordinance for the construction of a sewer in Summit Avenue from a point about 160 feet north of Cottage Street, etc., the City Clerk called for anyone who might desire to be heard either in favor of or against the proposed improvement.

Dr. Albanesius appeared and requested information at to what action had been taken.

Commissioner Fagen submitted a report that he had referred the matter to the Engineering Bureau of his department and as a result of their examination he finds that it is not absolutely necessary for the construction of a sewer in that portion of Summit Avenue between Cottage Street and Newark Avenue, for the following reasons: (1) That the present abutting property has adequate sewerage facilities. (2) That the proposed sewer could not be placed at sufficient depth to give relief to the abutting property. In view of this he would respectfully recommend that the ordinance be amended so as to exclude that portion of Summit Avenue from a point twenty feet south of Cottage Street to a point 160 feet north of Cottage Street. Thereupon the following amended ordinance was introduced:

By Commissioner Fagen:

Introducing an ordinance entitled "An ordinance to improve all that part of Summit Avenue from a point about twenty feet south of Cottage Street, and from a point about twenty feet south of Pavonia Avenue and ten feet north of Pennsylvania Railroad property; also Sip Avenue from a point fifty feet west of Summit Avenue, in the City of Jersey City, by the construction of a sewer in accordance with the provisions of chapter 152 of the Laws of 1917, and the various supplements thereto and amendments thereof."

Received and ordered placed on file in the office of the City Clerk for a period of two weeks for the purpose of public inspection.

FRANCHISE HEARINGS

This time and place having been set and advertised for hearing on the application of J. Frank Finn, attorney for Joseph J. Maguire for permission to

At this time William J. McKenna, Electrical Engineer, Department of Public Safety, appeared before the Board and reported that the Public Service Company contemplated the erection of a new line on the east side of Henderson Street, beginning at Morgan Street and running north to the City Line; that this line will carry 13,000 volts and is for the use of the New York and New Jersey Tunnel Commission to be used in building the tunnel; that this line will be very dangerous especially in case of fire where ladders have to be raised, in that the heat contact with the line would cause a very serious explosion which would result in great loss of life.

The Board discussed the matter at length and the Mayor asked Mr. McKenna whether placing the line in a conduit would be safe. Mr. McKenna replied that it would be the only proper thing to do.

The Mayor called upon Corporation Counsel Brogan and asked if an injunction could not be obtained against the laying of this line. Mr. Brogan replied that the Tunnel Commission had obtained an order from Court restraining the Board of Commissioners from interfering with the carrying out of the tunnel work. The Mayor then asked him to secure the injunction against the Public Service Company and to start immediately because the matter involves the safety of lives and property.

Mr. McKenna stated that there were several other similar conditions existing in the City. The Mayor thereupon instructed Mr. McKenna to take note of such conditions and then take the matter up with the Corporation Counsel.

At this time Counsellor Mark Sullivan appeared before the Board and presented plans for the proposed erection of an automobile salesroom on the Boulevard near Van Winkle Avenue for the owners, Baime Bros. He stated that the Zoning Commission informed him that the building could not be erected because that block is zoned for residential purposes; that at present there are automobile accessory stores located there; that some of the buildings are old and unsightly; that this proposed building will greatly benefit the block and add to the value of property.

The Mayor stated that in view of the fact that there was a church located near there and that he understands the pastor of the church is opposed to the building. Counsellor Sullivan stated that the pastor had said that as long as the zoning law prohibits the erection of such building that such would be his stand.

The Mayor advised Mr. Sullivan that after the application was approved, if the pastor objected, the application would have to be denied, the same as has been done in other cases.

The Board agreed that the block in question would be benefited by the erection of such building and in conclusion the Mayor referred the matter to the Superintendent of Buildings for report.

Philip J. Miele of 197 Clinton Avenue appeared before the Board with reference to his application for a private garage which has been denied by the Zoning Commission and the Superin-

tendent of Buildings. He stated that Oxford Avenue cannot become a residential street; that there are barns and automobile shops there at present.

The matter was referred to the Superintendent of Buildings for report.

At this time Mrs. Shanahan and other women representing the Jersey City Chapter of New Jersey War Mothers appeared asking permission to have a drive for funds for the New Jersey Disabled Veterans by conducting a theatre party at the Ritz Theatre.

Mayor Hague told the delegation that the proper thing to do is to confer with the Mayor's Committee for the relief of Disabled Veterans of Jersey City and thus prevent any confliction of plans, as at the present time the committee is planning a drive for its relief fund, and the City Commission wishes to insure aid to the Jersey City veterans first, it being very eager to help the veterans, but it is also anxious to prevent any mixups and conflicts in raising funds; that the committee appointed by the disabled veterans is a very efficient one, and nothing should be done which will interfere with its plans.

Mayor Hague suggested that Mrs. Shanahan get in touch with Mr. Fitzpatrick of the committee and discuss the situation of a drive for funds, and if the wish of the Jersey City Chapter is to be repesented on that committee arangements can be made to have such appointments made.

At this time petition was presented by Ruskin and Max stating that they contemplate erecting a four story brick building with stores at Summit Avenue and Academy Street to cost in the neighborhood of $100,000—that the Zone Commission refused to grant a permit for doing said work; that this section is a prosperous business locality, and should be changed from a residential section.

Mr. Saul stated that this section is a residential section, but that a diligent survey would show that this section should be changed to commercial and business uses from High street to Mercer Street.

Mayor Hague called the attention of the Corporation Counsel that in the face of the contemplated improvements to be made in that section that he prepare the proper amendment to the Zone Ordinance, and requested the City Clerk to give the matter thorough publicity.

Superintendent of Buildings John Saul appeared at this time and reported on the application of P. J. Miele to erect a garage on Oxford Place in the rear of his premises, 197 Clinton Avenue, and stated that, in his opinion, Oxford Avenue should not be prohibited for garage purposes, as Oxford Place is practically an alley and that the rear of the lots facing Clinton Avenue immediately abut Oxford Place.

Mayor Hague requested that the Corporation Counsel prepare the proper amendment to the Zone Ordinance to adjust conditions on Oxford Place.

At this time William H. Speer, representing the Public Service Company, appeared before the Board stating that there appeared in public notice recently that the Public Service Company was running a cable on Henderson Street, which was apparently filled with dynamite, which would be apt to create a great deal of trouble; that such report was the result of misinformation; that while the Public Service Company would have the legal right to go ahead with the work, yet it is the desire to have the good-will of everybody; that he came before the Commission to clarify matters and request that the city's engineers meet their engineer and look into the matter and report back to the Board of Commissioners that the Board might see the result of the investigation and that the Public Service Company may go ahead with the work without any ill-feeling from the people of the city; that this cable is one that is used for miles and miles in the streets of various cities throughout the State and is harmless, having an armour plate insulation and carries 13,000 volts, and capable of carrying 26,000 volts.

Mayor Hague requested that Commissioner Quinn arrange to have his engineer, Mr. McKenna, meet the company's engineer and go over the

ground, to which Commissioner Quinn agreed to make immediate arrangements.

Hearing having been set for this time and place upon the application of Charles Campbell to erect a battery of garages at 49 and 51 Storms Avenue, Counsellor James A. Sullivan, representing property owners on Storms Avenue, appeared objecting to the erection of said garages, stating that that section is restricted exclusively for residential purposes; that according to section 3, article 8, regulates that no group of garages or motor vehicle service stations shall be constructed within a distance of 150 feet from any school, public building, etc., and that the garages which Mr. Campbell wishes to erect is distant about 100 or 200 feet from School No. 18.

Corporation Counsel Brogan stated that Mr. Sullivan objects to the garage being within the school area and that it is in a residential district, but Fairmount Avenue is zoned for business purposes and Storms Avenue is zoned for residential purposes, the entrance of the garage being on Fairmount avenue, which is not restricted.

Mr. Sullivan stated that the Commission could not permit Mr. Campbell or any other person to erect a battery of garages on Fairmount Avenue because of the restrictions outlined in the zoning ordinance.

Commissioner Gannon stated that the entrance of the school is on Storms Avenue and the entrance of the garage is on Fairmount Avenue, and at this time, as the application is before the Commission, this Commission sits as an Appeal Board, that it rests with this Commission what shall be the disposition of this case, it being a matter of discretion. Counsellor Sullivan requested that should the Board consider this appeal, the application should be treated according to the rules of the zoning ordinance.

Mr. Saul stated that as far as the entrance to the garage is concerned there is no entrance on Storms Avenue and there can be no danger to the passing school children if section 3, article 8, is to be considered, but the only objections that might arise would be that on a residential street the garage should be built 20 feet back of the street line, and should be ten feet away from any residence, that if this Commission considers the erection of this garage on an appeal, permission cannot be granted consistent with the restrictions made on the erection of pri-

vate garages in a residential district.

Commissioner Fagen stated that the opinion of Mr. Saul in considering an appeal of the restrictions set down by the zone ordinance is one taken from long experience, which should be upheld.

Mayor Hague suggested that this hearing will be continued for further investigation, and requested that Mr. Saul and Commissioner Fagen go over the situation and look over the neighborhood and report back to this Board.

By Commissioner Moore:

Whereas, The Central R. R. of New Jersey plans to replace the present old railroad trestle obstructing the entrance to Newark Bay between Bergen Point and Elizabeth by a permanent steel and concrete bridge and,

Whereas, Such a permanent steel barrier across the mouth of Newark Bay would forever destroy the possibility of developing this great inland bay into the railhead-steamship harbor which the metropolitan district must have to solve its problem of congestion and high cost of operation; and,

Whereas, the solution of the port congestion problem lies in co-ordination of the railroads and their removal from the occupancy of the waterfront of New York Harbor; and,

Whereas, the developments of the next decade or less will undoubtedly result in electrification of the railroad transportation within the metropolitan district; and,

Whereas, the feasibility of constructing a railroad tunnel or tunnels under Newark Bay to replace this bridge at a cost insignificant when compared with the advantages it would bring to commerce, transportation and navigation can be shown; and,

Whereas, the construction of a vehicular tunnel at this same location is a matter about to be placed before the Legislature of the State by the Cities of Bayonne, Jersey City, Elizabeth, and Newark, this bill to provide for sharing of the cost of construction between the State and the railroad company. Such railroad and vehicular tunnel if built at the same time, simultaneously, would result in great saving in cost of construction to the railroad company and the State; and,

Whereas, Such vehicular tunnel is necessary as an integral part of the port road articulation for Elizabeth, Perth Amboy, and all the industries located along the Arthur Kill, Raritan Bay, the southern part of the State, and along the lines of the C. R. R. of N. J. itself; and,

Whereas, the expected increase in the number of vessels navigating Newark Bay and the increased number of passenger and freight trains which the future must bring, will necessarily result in keeping any drawbridge open for hours at a time, this resulting in greater delay in train service than now exists and is constantly complained of by the commuters along the C. R. R. of N. J.; and,

Whereas, The construction of a railroad tunnel at this location would result in almost unlimited increase in both passenger train accommodation and freight service; and,

Whereas, The vehicular tunnel proposed would bring the commuter and the industries of the C. R. R. of N. J. and adjacent railroad in direct automobile contact with New York City; and,

Whereas, This combined railroad

and vehicular tunnel can be shown to be one of the great factors which would reduce transportation costs and therefore the cost of living in the metropolitan district; and,

Whereas, This bridge has prevented the reclamation of thousands of acres of salt marsh and meadow land, the so-called Hackensack Meadow, land, which, if this bridge is removed should become the greatest industrial city in the world, the workshop of the metropolitan district; and,

Whereas, Its removal would result in enabling the western industries to directly load their products into steamships meeting the trunk lines in Newark Bay, thus eliminating the cause for serious consideration of a project of the magnitude of at St. Lawrence River Canal involving the expenditure of $500,000,000; and,

Whereas, A hearing will be held by the Secretary of War upon this vital question at Washington, D. C., on Dec. 8, 1922, at 10 A. M., in the Munitions Buildings, therefore be it

Resolved, That the Mayor and City Commissioners of Jersey City go on record as strongly protesting against the construction of any railroad or other bridge across Newark Bay and expressing their strong conviction of the necessity of a railroad tunnel to permit development of the shores of Bayonne, Elizabeth, Newark and Jersey City and of a vehicular tunnel between Bergen Point and Elizabeth to remove the present isolation of the southerly section and of Hudson County from the rest of the State and to open up this territory to intercourse and contact of industries throughout the metropolitan district and the State.

IMPROVEMENT HEARING

This time and place having been set and advertised for the purpose considering the confirmation of final assessment maps and reports for the improvement of Clarke Avenue, between Mallory Avenue and Water Street; improvement of Virginia Avenue, between Mallory Avenue and Bennett Street; and improvement of Neptune Avenue between Ocean Avenue and Old Bergen Road, in accordance with the provisions of Chapter 152, Laws of 1917, and the various supplements thereto and amendments thereof, the City Clerk called for any one who might desire to protest against the confirmation of said maps and reports, Mr. Joseph A. Duffy appeared on behalf of Charles J. McCloskey and objected to the proposed assessment on the improvement of Clarke Avenue that the assessment is excessive and unwarranted in view of the estimated cost before the improvement was undertaken; that assessment greatly exceeds the benefits conferred upon the property by the improvement, etc., and presented a general written protest. Mr. Condict, of Condict & Condict, representing several property owners in the matter of the improvement of Clarke Avenue and also Virginia Avenue, appeared and presented a general protest along of excessive cost of benefits.

Mr. William Ruthenback appeared and stated that he was perfectly satisfied with the confirmation of assessment maps and report for benefits to his property on Clarke Avenue; that he is the owner of property situated on Block 1,769, Lots 5 to 11, and Block 1,772, Lots 74, 75 and 76.

Mr. Condict asked that the assessment be reduced and borne by the city at large, to which Commissioner Fagen responded that the cost of the improvement is one which was estimated on practically pre-war prices, as the original bids received for the doing of said work was excessive and high and over the engineer's standard, and the said bids were rejected. New proposals were solicited and received which were far below the engineer's standard on said improvements, thereby effecting a large reduction in the cost of the improvements. In view of the facts, Commissioner Fagen moved the confirmation of the final maps and reports in the matter of the assessments on said improvements, and that the protests filed by Messrs. Condict & Condict and Mr. Joseph A. Duffy in behalf of Charles J. McCloskey for the reasons set forth therein be not sustained.

No persons appeared to protest against the confirmation of the final map and report on the improvement of Neptune Avenue between Ocean Avenue and Old Bergen Road, and Commissioner Fagen moved the confirmation of said map and report.

By Commissioner Fagen:

Whereas, This Board met on the 12th day of December, 1922, to hear, consider and adjudicate upon objections which should be present against the final assessment map and report for the improvement of Clarke Avenue, between Mallory Avenue and Water Street, conformably to provisions of Chapter 152, of the Laws of 1917, and the various amendments thereof and supplements thereto; and

Whereas, This Board has considered each and all the objections presented at such meeting, and have adjudicated upon the same, and have determined that neither all nor any of them are sufficient; therefore

Resolved, That said final assessment map and report, as filed by the Commissioners of Assessment on the 21st day of November, 1922, and the said assessment therein shown be and the same are hereby confirmed, and that the City Clerk be directed to file

the same with the City Collector for collection.

This time and place having been advertised and set for public hearing on the application of the Bayview Cemetery Association, a corporation of the State of New Jersey, for permission to enlarge its cemetery and embrace within its limits the lots of land which are known, laid down and designated upon the official Assessment Map of Jersey City, N. J., of 1894, made by L. D. Fowler as lots numbered 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16 and 17, and the westerly half of Lot 28, in Block numbered 1441¼, the City Clerk read the public notice of hearing and then called for anyone who might desire to protest against said application.

A written protest was received from Erwin & Erwin, Attorneys for the

Greenville Merchants' Association, which stated that the association had no complaint to make against the way the cemetery is run, but the theory of burying grounds within city limits is all wrong and should be curtailed rather than expanded; also that such expansion will be a detriment to the advancement of the Greenville section, by taking still more property out of possible usefulness.

Counsellor John Heck for the Bayview Cemetery Association suggested that the hearing be laid over until January 19, 1923.

By Commissioner Fagen:

Resolved, That the hearing on the application of the Bayview Cemetery Association for permission to enlarge the cemetery be and the same is hereby adjourned and continued to Tuesday, January 16, 1923, at 3 o'clock p. m. in the Assembly Chamber, City Hall, Jersey City.

The City Clerk read the ordinance and then called for any one who might desire to protest against the passage of said ordinance.

A written protest was received signed by several property owners on the block of Summit Avenue between Vroom and Academy Streets, which stated that additional store property would not increase the valuation of the property on said block, further that if any additional stores are erected on this block there would be a possibility of converting any one of the private residences into store property.

Memorandum of Agreement made this 28th day of November, 1922, between the Mayor and Aldermen of Jersey City, a municipal corporation of the State of New Jersey, party of the first part, hereinafter called the "City" and Haberland Manufacturing Company, a corporation of the State of New Jersey, called the "Company," party of the second part;

Whereas, The said Company is the owner of certain lands and premises located in Allwood, Clifton, New Jersey, contiguous or adjacent to water pipe line of said City, and is desirous of securing a supply of potable water for use in and about its said lands and premises from said City;

Now, therefore, this agreement, witnesseth:

First, that the City agrees to obtain for and supply to said Company such quantities of water as may be desired by said Company in, upon, or about said land and premises owned by said Company, and the said Company agrees to take and receive such quantities of water and to pay for the same at a rate hereinafter set forth, and said agreement shall be effective from the date of the execution of this agreement up to and until December 31, 1928, it being agreed between the parties that the water to be furnished shall be of a quality equal to that furnished by said City to its own inhabitants, and that it shall be supplied from one six-inch connection from the water pipe line of the City, which connection shall be located as follows:—Station 730 + .70.

Second. The Company agrees to install at its own expense one six-inch connection and also to install a proper meter or meters and appurtenances for the measuring of said water, such meter or meters and appurtenances to be of approved type and satisfactory to the City and to be set in accordance with plan on file in the office of the Water Conservator, City Hall, Jersey City (a blueprint copy of which is attached and forming a part of this agreement), said meter or meters to be submitted to City Meter Laboratory, 765 Summit Avenue, Jersey City, for testing purposes. Should the City desire said meter or meters changed, the Company agrees to remove same and substitute other meters of approved types and likewise satisfactory to the City. Said Company also agrees to construct and maintain a reinforced concrete vault, with suitable cover and locks, for the housing of meters and appurtenances.

Third. The Company agrees to pay the City at the rate of One and 20/100 ($1.20) Dollars per thousand cubic feet for all water used by it and registered by the Company's meter or meters, but the minimum charge which the City shall receive and which the Company shall pay shall in no event be less than One Hundred and Twenty-Five and 00/100 ($125.00) Dollars quarterly, notwithstanding that the Company may use less water than the amount of this charge.

Fourth. Payment for water to be delivered under this agreement shall be made quarterly to the City. Failure to pay minimum charge in addition to excess as shown by meter, if any, within thirty (30 days after rendition of bill shall be sufficient cause for the immediate cancellation of this agreement.

Fifth. Said Company agrees to secure, if necessary, the consent of the City of Clifton to the supplying of water as called for in this agreement.

Sixth. The City will exercise reasonable care to perform this agreement, but shall not be liable for any accident to pipes which would stop the water supply herein contracted for or other causes beyond its control; during any disability of the City to furnish the required supply said Company is to have the right to obtain the same from any other available source, but the City shall not be held responsible in any way if the Company shall have to pay for such water more money or a higher rate than is charged under this contract.

Seventh. This agreement shall not be assigned except upon consent of the City.

In witness whereof the said party of the first part has caused these presents to be signed by its Mayor and its Director of the Department of Streets and Public Improvements, and its corporate seal to be hereunto affixed by the City Clerk and the party of the second part has likewise caused the execution of this agreement the day and year aforesaid.

At this time Commissioner Gannon tendered his resignation as a member of the Board of Commissioners, to be effective as of January 1, 1923, as follows:

"December 12, 1922.

"To the Honorable
Board of Commissioners,
"Jersey City, N. J.

"Gentlemen: It is with deep regret that I find it necessary to tender my resignation as a member of this Commission, to be effective as of January 1, 1923.

"Until recently my private business permitted me to devote practically all my time to the administration of my office. However, during the last year I have extended my business interests so that they now require all my time and attention if I am to pursue them further. Municipal business, especially in this department, as you gentlemen are well aware, is also growing, and I feel that the time has come when I must make a choice between a political and a business career. After mature deliberation I have decided to devote my entire attention to the real estate business and thus regretfully am obliged to take this course. It would be unfair to you gentlemen and to the taxpayers of Jersey City to do otherwise.

"My one great regret in tendering my resignation is the loss of intimate and daily association with the members of this Commission, whose friendship I highly cherish, and whose co-operation at all times since I have been in office has made my daily task less arduous. However, I find solace in the thought that an unbroken friendship existed between me and every member of this body from my entry as a member to the date I find it necessary to resign.

"I sincerely believe that Jersey City under your able guidance will continue to grow and prosper, and that in this most important period of transition from a small to a large city its affairs could not be more ably directed then they are under the auspices of the present governing body.

"Very sincerely yours,
(Signed) "J. F. GANNON, JR.,
"Director."

Mayor Hague stated in accepting Commissioner Gannon's resignation, which will mean the loss of the services of a gentleman and a friend faithfully rendered, that "this communication is dated so that Commissioner Gannon's resignation shall take effect January 1, and at which time a new Director of the Department of Revenue and Finance shall be selected, on that occasion we shall express our sentiments to Commissioner Gannon on his resignation as a member of the Board."

By Mayor Hague:

Resolved, That the resignation of the Director of the Department of Revenue and Finance, James F. Gannon, Jr., presented this day, be and the same hereby is accepted as such, to take effect January 1, 1923.

Yeas: Commissioners Fagen, Gannon, Moore, Quinn and Mayor Hague.

Nays: None.

On motion of Commissioner Moore the Board adjourned.

CITY ORDINANCES

This time and place having been advertised and set for public hearing on the final passage of the following ordinance: "An ordinance to amend an ordinance entitled 'An ordinance relating and restricting the location of trades and industries, and the location of buildings designed for specified uses, and regulating and limiting the height and bulk of buildings hereafter erected and regulating and determining the area of yards, courts and other open spaces surrounding buildings, and establishing the boundaries of districts for the aforesaid purpose and providing penalties for the violation of its provisions', passed March 31, 1922."

(Rezone Oxford Avenue, between Boulevard and West Side Avenue, so as to include within business district.)

The City Clerk read the ordinance and then called for anyone who might desire to protest against the final passage of said ordinance. No one appeared to protest and no written protests were received against the final passage of the above described ordinance.

Commissioner Gannon thereupon moved the passage of the following ordinance:

By Commissioner Gannon:

Resolved, that the following ordinance do now pass:

The Board of Commissioners of the Mayor and Aldermen of Jersey City do ordain as follows:

1. That the "Use District Map" forming a part of the ordinance to which this ordinance is an amendment be and the same is hereby amended so as to include within the Business District Oxford Avenue between Hudson Boulevard and West Side Avenue in the City of Jersey City.

2. This ordinance shall in no wise limit or restrict any other section of the ordinance with relation to the regulations concerning said district.

3. This ordinance shall take effect upon its final passage.

The City Clerk read the foregoing ordinance as ready for final passage.

The roll being called the ordinance was passed by the following vote:

Yeas: Commissioners Fagen, Gannon, Moore, Quinn and Mayor Hague.

By Commissioner Gannon:

Resolved, that the hearing on the foregoing ordinance do now close.

FRANCHISE ORDINANCES

This time and place having been advertised and fixed for public hearing on the following described applications for franchise privileges:

Wasil Kowal, requesting permission to maintain encroachment on building known as 198 Zabriskie Street.

Henry Schumacher, requesting permission to maintain encroachment on building 88 Ocean Avenue.

The City Clerk read each public notice of hearing and then called for anyone who might desire to protest against any of said applications. No one appeared to protest and no written protests were received against either of said above described application.

By Commissioner Fagen:

Introducing an ordinance entitled "An ordinance for the relief of Wasil Kowal of the City of Jersey City, in the County of Hudson and State of New Jersey, in relation to the encroachment of the building situated on the northwesterly corner of Zabriskie Street and Terrace Avenue in the City of Jersey City."

Received and ordered placed on file in the office of the City Clerk for a period of two weeks for the purpose of public inspection.

By Commissioner Fagen:

Introducing an Ordinance entitled, "An Ordinance for the relief of Henry Schumacher of the City of Jersey City, in the County of Hudson, and State of New Jersey, in relation to the encroachments of the buildings situated on the southeasterly corner of Ocean Avenue and Seaview Avenue in the City of Jersey City.

Received and ordered placed on file in the office of the City Clerk for a period of two weeks for the purpose of public inspection.

This time and place having been advertised and fixed for public hearing on the application of C. F. Mueller Company for the vacation of the northerly dead end of Front Street, Jersey City, N. J., the City Clerk read the public notice of hearing and then called for anyone who might desire to protest against said application.

A written protest signed by several property owners on or in the imme-

diate neighborhood of Front Street was presented to the Board of Commissioners, in which they protest against the application for the reason that Front Street is a very short street; that it is important to the interests of the property owners that Rock Street shall at some time in the near future be extended in a southeasterly direction so as to connect with said Front Street and if said Front Street is vacated it will obviously shorten Front Street and interfere or entirely prevent such extension of Rock Street, thereby greatly damaging and depreciating the property of the protestants.

By Commissioner Fagen:

Resolved, That the hearing on the application of the C. F. Mueller Company for the vacation of the northerly dead end of Front Street, Jersey City, N. J., be and the same is hereby adjourned and continued for a period of two weeks to Tuesday, January 2nd, 1923, at 3 P. M., in the Assembly Chamber, City Hall, Jersey City.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore, Quinn and Mayor Hague.

Nays: None.

IMPROVEMENT HEARING

This time and place having been set and advertised for public hearing for the purpose of considering the confirmation of the map, report and schedule of awards, showing the lands to be taken, the awards for damages and the benefits assessed as filed by the Commissioners of Assessments of Jersey City with the City Clerk for the widening of Bergen Avenue, between Hudson County Boulevard and Bergen Square, and for the widening of Sip Avenue between the present westerly line of Summit Avenue and the proposed easterly line of Bergen Avenue, in accordance with the provisions of Chapter 152, Laws of 1917, and the various supplements thereto and amendments thereof, and to hear, consider and adjudicate upon objections and all matters which might be presented in the matter of the confirmation of said map, report and schedule of awards, the City Clerk, having read the public notice of hearing, which was duly advertised according to law, and written notice of which having been sent to property owners and persons affected by said improvement to their last and best known addresses, called for all persons who desired to be heard, and all petitions and protests which might be presented.

Mr. Warren Dixon appeared and stated: "I appeared at the hearing before the Commissioners of Assessments which was held here recently representing other clients, but today a lady named Alida Gillette asked me if I would speak for her. She did not come down here before the Assessment Commissioners, and I do not know if it is in order to note her intentions on the record. She lives at 64 Sip Avenue and is the tenant of property at 433 Summit Avenue. She has a yearly lease on the said property, and the lease has been running for some time, and her new lease started in November of this year and runs to next year. She sublets that property and the lease calls for $175.00 per month, and she subleases the property to a number of tenants at an aggregate amount of $238.00 per month. I would like to call the Board's attention if this can be referred to the Assessment Commissioners so that she may be protected.

"I also represent Mrs. Carell, who has three pieces of property which are affected by this improvement. She has one piece of property on Bergen Avenue, on the west side of Bergen Avenue, and two pieces of property on Sip Avenue, one of which is on the corner of Summit Avenue and Sip Avenue. Her particular objection with regard to the Sip and Summit Avenue property is that she has been assessed, or is to be assessed, according to the report for benefits, in the sum of $2,232.00, and while the award she considers low so far as the damages to her property are concerned and the value given to the land, yet it is fair in comparison with the general scheme that the Commissioners of Assess-

ments seem to have adopted, so that particularly she is making objection to the benefits assessed, as she claims that there can be no benefit arising from the improvement; it is merely the widening of the street, which she claims. Those remarks may be applied to the property on Sip Avenue, known as Block 1867, Lot 3A, but the benefits assessed amount to $632.00, and that is of such a slight amount we practically have no objection. As regards the property on Bergen Avenue she is assessed for benefits to the sum of $6,786.00. The damages allowed were for the taking of lands calculated on the footage, on which she has no complaint, as the property seems to be in accordance with the general allowance in that vicinity. It probably is small, but she has no complaint. They have allowed, however, for altering the building $300. That building, according to the testimony that she produced, in order to put it any way near the status it was, will have to be moved, and, as I recall, the testimony showed that it will cost $5,000.00 so as to move it back and have the relative position it now has on the street, and for that award for benefits she decidedly objects, and further objects to the damages of $300.00 for moving, and on the other side, I understand, where a building has been affected and cut as hers has, the Assessment Commissioners allowed in every instance the cost or practically the cost of moving the building back so that it will bear the same relative position to the new street as it does to the street now. And as I contend there is no benefit to be derived from that assessment, and therefore we make a general protest and objection to the assessment for benefits. As I understand the situation, the Commission has laid these benefits for assessments on the immediate property and only upon those, and where they have taken land from in front of property they are assessed against the property from which they have taken the land for this improvement, and we contend that is not a correct method of assessing for benefits."

Mr. John T. Gough, representing James T. Gough, owner of property designated by Commissioners No. 8, stated Mr. Gough is assessed for total benefits amounting to $8,766.00. Mr. Gough states that this widening will confer upon his property no special benefit, and he therefor objects to the assessment. The scheme of the improvement is for the benefit of the public at large, and it is contended by Mr. Gough that it should be borne by the public at large.

Mr. Mayor, if it be practically determined upon, may I ask you that the City acquire for plaza purposes the Journal property and the Sullivan property, and the County acquire the Arlington property? I do not know whether I am off color here or not, but it seems to me that if that block is to be taken entirely for public use it might be a saving in the long run to the city if there were a readjustment of the Sip Avenue situation for this reason. Under the present plan there are taken from the north side of Sip Avenue five feet of land. The most damage is caused to the Rowland property, and the whole damage from the Rowland property going eastward to Summit Avenue is approximately $80,000. The present situation as I view it in regard to the north side of Sip Avenue is that it will make very little difference in the expense to the City if you take 25 feet instead of 20 feet and leave the north side of Sip Avenue intact. I do not know how that works out from an engineering standpoint, but from what I can see from the plans there will be no added damage to the buildings on the south side of Sip Avenue if the additional five feet be taken there, but there will, of course, be a corresponding element of damage, but the five feet on the north side will offset that, and I urge upon the Commission that if a change may be made, it will relieve the situation of some $80,000, because that money which I speak of comprises damages paid to the owners for changes in their buildings.

Mr. John T. Gough: Mr. Dixon ad-

verted to this situation that the total assessment be thrown on the abutting owners. As I understand, by way of damages paid for lands taken and the amount paid for the buildings amount to $648,656.65. That, of course, does not include the contractor's item at all, but I do notice that on the city at large there is placed $335,209.65. In the case of my particular client, I repeat, we are unable to see how the land widening of the street confers any benefits upon what property is left. Now, there is another department of this situation—that there does not seem to be any logical connection, or any legal connection between the assessment of owners on Bergen Avenue with the assessment of owners on Sip Avenue. In other words, it is difficult to say where the owners on Sip Avenue should contribute to the cost of damages on Bergen Avenue or vice versa, or, following Mr. Dixon's ideas, if your Honor should conclude that there should be, as between the two sets of owners, an adjustment, why there ought to be adjustments in which there should be participation of assessments by owners in the immediate neighborhood. If Bergen Avenue contributes to the assessment of Sip Avenue, then also the owners on Enos Place, Jones Street and Newkirk Street and perhaps Academy Street should, and to our idea, of course, it should be to a public expense.

Mr. H. Delatush appeared representing Rebecca Gardeen and Mrs. Harris, objecting to the awards of $650 for damages and $1,200 for altering the buildings each on Lots 4M and 4L, Block 1871, that the proposed new line would come up to the bay window of the building, cutting away the stoop entirely, leaving nothing by which to get into the house except to alter the building into an English basement house, which is entirely objectionable to a private residence. We offered before the Assessment Commissioners testimony to the extent that it would cost $5,480 to move the building back and allow for the erection of a front stoop. We ask the same consideration as given to the property owners on the south of Sip Avenue which are affected in the same manner as the property on Bergen Avenue, where the Commissioners allowed the cost of moving the buildings back, and we ask the same consideration. The same thing applies to the property of the estate of Max Ashkenas, Block 1871, Lot 4K, Commissioners' No. 6, as all four buildings could be moved en masse, and we claim merely the cost of putting the buildings back in the same relative position to the street as they are now.

J. Fisher Anderson: I represent the Trust Company of New Jersey, Commissioners' No. 10, 11 and 28; A. J. S. Makray, Commissioners' No. 32; I. M. Shackter & L. Schuchman, Commissioners' No. 37, 38, 39 40 and 41; Anthony Michel, Commissioners' No. 17 and 18; Margulies & Gerstenfeld, Commisisoners' No. 33; The Boulevard Company, Commissioners' No. 12; The Arlington Co., Commissioners' No. 49, and we also represent various tenants in various properties, namely: Follansbee in the Darling property, Commissioners' No. 19; National Grocery Company in the Trust Company of New Jersey property, Commissioners' No. 10; Humphrey's in the Rowland property, Commissioners' No. 45; Sears & Osmond in the same property; Michael & Moore in the English property, Commissioners' No. 31; Realty Security Company in the Michel property, Commisisoners' No. 17 and 18. Perhaps I have omitted some, and if I have I want to apply myself correctly. We want to raise an objection to the general assessment on the ground, first, the benefits are entirely too high; second, the method of assessing the benefits is erroneous on the ground that the assessment is applicable only to the abutting property owners; and, third, a general objection that there is no benefit conferred upon the abutting property owners, that the improvement is merely for the enlargement of traffic facilities in that par-

ticular and confers a benefit upon the entire neighborhood in the Summit Avenue Tube Zone.

I also want to object generally to the awards on the ground that the Assessment Commissioners have disregarded the testimony of real estate experts that was produced on behalf of our clients, as to the basis of valuations, as to the price of recent sales just prior to the Assessment Commissioners' proceedings, and that such testimony has been disregarded. On behalf of the tenants we want to counter-object against the payment of any awards to any of the owners of property in which our tenants are located and request that awards be paid into the Court of Chancery, so that the tenants' claims to those funds may be adjudicated.

Robert Carey, representing Rowland property, and Evening Journal Association property, Commissioners' No. 45 and 46, respectively: We have noted your application before the Supreme Court in the matter of the Journal Square condemnation procedings.

Mr. Stout: We are attempting to acquire all the property occupied by the Journal Building, etc.

Commissioner Fagen: This matter should not be made a part of this. The discussion is upon the confirmation of this map or to refer it back for correction, etc., and whatever action we might take here, this action is absolutely irrespective of anything other than this proceedings.

Mayor Hague: Can the City make two applications?

Commissioner Fagen: We are crowding the issue, Mayor.

Mayor Hague: How do we stand on this condemnation application and this here widening proposition?

Commissioner Fagen: That is a question of law and it could be referred to Mr. Stout as to his opinion.

Mayor Hague: Do you think it is injurious to the City to discuss this issue, Commissioner Fagen?

Commissioner Fagen: I do. They are separate from each other and I do not want to see any complication arise, and I do not think they want to see it.

Mr. Stout: You are confirming awards on this property, and in the condemnation proceedings you are paying for benefits which you have conferred.

Mr. Gough: It is complicating, that you assess the Journal, Rowland and Arlington properties for benefits.

Commissioner Fagen: This is not a court, we are not interested at all on that, we are sitting here on this particular map.

Mr. Carey: And if we can get an adjustment on this suggestion, I will not have anything to say against the benefits charged to the Journal property. You have applied to the court and if you take anything from the Journal property and you take it by condemnation proceedings, if we are charged for land before the city takes the property under condemnation, we want it understood that the amount of benefits will be added to the condemnation award hereafter. It we are to be charged with $30,000.00 for that which we do not enjoy, for which we are assessed for future enjoyment, and you take away our property, we would want that amount added to the sum for awards, otherwise we would be out twenty or thirty thousand dollars benefits and get nothing in return. You can put it down and credit us with it and you could wipe it out as far as benefits are concerned. We think we ought not to be assessed for 25 benefits growing out of an improvement, when we are not to enjoy it, when in a month or two condemnation proceedings will be taken. I think that some stipulation can be worked out by us If you charge us $36,000 benefits now, and you certainly have, you must allow us $36,000 in the event of condemnation proceedings.

Commissioner Fagen: My desire about the situation is to keep my records straight. I can see what will be the outcome. It is going to go to court.

Mr. Gough: The application in the Supreme Court embraces the very property that is to be taken.

Commissioner Gannon: Approximately 50 per cent of this cost is borne

by the adjoining owners and who will contribute money for that which the Jersey Journal will get in consideration.

Mr. Carey: The Journal does not get a penny of it.

Commissioner Gannon: The City at large will pay for that.

Mr. Carey: And the City is to get those benefits by virtue of taking those benefits, and the City is to assume the item of awards for the land that is taken.

Commissioner Gannon: I cannot see how in this proceeding we can make any stipulation in this assessment.

Mr. Stout: You can eliminate the property of the Jersey Journal.

Commissioner Gannon: Are you sure in your condemnation proceedings the property in question was excluded?

Mr. Stout: No, it was not.

Commissioner Gannon: Then I think you should stop action, the condemnation proceedings are wrong.

Mr. Carey: You have us charged at the rate of $17.50 per foot. We do not claim any damage to buildings. The Journal is not here to oppose anything that the Board is doing. We simply want to get this thing down so that it will affect the property in the City fairly. By any hocus pocus we are to pay for benefits and we are not to get any benefits, then we want to present our objections right here. I think that the benefits shall be held as an offset in the condemnation proceedings and given to the Condemnation Commission, and this price allowed by the City should be taken by the Condemnation Commission.

Commissioner Gannon: It cannot be done in this proceedings.

Mr. Carey: But it can be done by your Commission.

Mr. Gough: I think that the city can do anything that is just and equitable and make any adjustment advisable.

Mr. Carey: If we do not take advantage of an adjustment, we do not want to be put in a position that we waive any of our rights.

Mayor Hague: How can we protect our rights?

Commissioner Gannon: By starting the condemnation proceedings over again.

Mr. Stout: The city has conferred benefits to you to the extent of $35,000 and that amount the Commission in Eminent Domain would give them back to you.

Mr. Carey: If that is the expression of the law department and the expression of the city, I think that can be worked out. As far as the condemnation proceedings are concerned, we have no objection in the description so that there will be no delay in the proceedings. We do not want to delay the proceedings. The Journal believes that there must be some improvement in the neighborhood and we will suffer considerably. It has got to come and it has got to change the location of our paper and change the location of all buildings, and the Journal is heartily in accord with any improvement in that direction.

Mayor Hague: Do you suggest that we draw an additional resolution in the condemnation proceedings?

Mr. Stout: If it plainly stipulates the exact amount of property, I think that can be done as an amendment to the petition.

Mr. Carey: Providing it is entered with a stipulation modifying that description and agreeing to the charge of benefits.

Mr. Stout: That will have to wait until what action you have determined to take here.

Commissioner Gannon: But we have done nothing in this proceeding regarding your request.

Mr. Carey: But you will. I assume that you will.

Mr. Gough: As the representative of another owner, I want to object.

Mayor Hague: I want to see or place no obstacle in this matter and have it under way.

Mr. Carey: I wish to place a formal objection in the record.

Whereas, The City has declared that it is immediately to take over our

property for public purposes and has instituted condemnation proceedings to that end which will wipe out any possible benefits which might possibly come from the improvement, that the charge for benefits to the property to the Evening Journal Association be cancelled by this Board; that the matter be referred back to the Assessment Commissioners so that the charge for benefits can be cancelled as a matter of record.

Mr. Warren Dixon: I want to object to the objection.

Mr. Stout: I want to object on behalf of the City.

Mr. Carey: That the property value given for the property taken is not as high as the property is valued at. We are not going to fight about that now, and if that is so and we are treated properly on the benefits proposed we will be willing to forget that.

On the Rowland property there is presented a different situation. In that connection I want to urge that the plan suggested heretofore is a good one. This is a big improvement and should be given serious consideration. From an analysis of the figures by the taking of land on the south side of the street will save a great deal of money, and far as the Rowland property is concerned, I would urge that this matter be referred to the Assessment Commissioners and relocate the line of widening on the south side of Sip Avenue. You have destroyed a piece of property by taking away a great part of it and you have awarded damages to the extent of $47,000 in round figures and that money would be saved absolutely to the city if that course was pursued. Mr. Rowland's property would be left intact. We protest as to the amount of awards to Mr. Rowland for the damages done to his building. It would be utterly impossible to meet the damages of his building for the sum that is fixed in this report.

There is another more serious situation presented by the Assessment Commissioners in the Rowland case, and that is the question of lands taken. We say that $17.50 is not sufficient. We make objection to that.

Mr. Rowland is charged with benefits to the extent of $21,643. We have made an analysis of those benefits and have compared them with the benefits that are charged the other properties involved in this improvement. After you have taken the question of damages out, the benefit is one of general application. Mr. Rowland's property is located at Journal Square and Sip Avenue, but immediately adjacent is the property of the Public Service Railway Company, which are absolutely similar properties in every sense and in detail the same kind of frontage on Sip Avenue. I want to call attention to the tabulation of the Assessment Commissioners. I present you with a tabulation gotten up by us and we want you to look over it. This schedule shows the status of a number of properties in that immediate location in comparison to Rowland's property, and when you look at the scheme that I am going to draw your attention to, you will see from some reason or other the gross inequity to the benefits charged to Rowland's property. You take the property of the Public Service Railway Company next to Rowland's property, the benefits charged against the Rowland property is $2.64 for every square foot he owns there. The assessment for benefits charged the Public Service next door, exactly the same property is charged at 25 cents a square foot. The Commissioners are charging Mr. Rowland ten times as much as they are charging the Public Service for the same kind of property and on the same basis of calculation. On the property that is left, after the taking of this property, the situation is about the same. The benefits charged against the Public Service on that basis will be 24½ cents per square foot. The assessment against Rowland's property is $2.50 per foot. We are charged for benefits for identical purposes ten times as much as you are charging the Public Service Company. If that is equitable,

I do not know what is. Take, for instance, the value of these two properties as fixed by the Assessment Commissioners, by the taking of portions of this property for use of the City, taking the value you have assessed for benefits, you charge the Public Service at the rate of 3 per cent. and you have assessed Rowland for benefits at 15 per cent.; you have us assessed five times the value and on the square foot basis eleven times as much.

Mayor Hague. Are these figures correct that you quote?

Mr. Rowland: We have taken these figures according to your schedule.

Mr. Gough: Is it not taken as a standard as a square foot?

Mr. Carey: I think the Commissioners have taken a running foot for the basis. On a running foot basis the Public Service is assessed $54 and Rowland at $204.48, and the Journal is assessed on a front foot basis of $854.24.

Commissioner Gannon: I have not analyzed the figures and you people have, but there seems to be some difference in your figures when the lineal foot valuation is only practically four times as much for your property and there is a difference of 1,000 per cent. per square foot.

Mr. Carey: They have 31,262 square feet and we have 8,190 square feet.

Commissioner Gannon: You are figuring on so much a square foot.

Mr. Carey: Take the square footage, the percentage is, as I have stated, 3 per cent. per square foot, and we, 15 per cent., five times as much. Take the Public Service property; what kind of a building is on this property? We know what it is, one of the finest buildings in the State today. The Holland Company are assessed benefits at the rate of 2½ per cent. We are assessed 15 per cent., that answers your questions. There is a fine big office building and business building on the Holland property. We are assessed just six times the amount of the assessment that is applied to the Holland Company, which is the building occupied by the Hudson County Gas Company.

Commissioner Moore: Their benefits are estimated at $2,657.

Mr. Carey: That is all we charge them with, and we are benefited with $21,000. We pay just ten times as much as the Hudson County Gas Company.

Commissioner Fagen: Your argument is based on comparison.

Mr. Carey: Yes, sir; and the equity should be taken into consideration. Take the bank property, which is the best property, according to experts, in the community today, which will have the finest location in the State when the plan goes through. They are assessed 8½ per cent. What are we assessed? Fifteen per cent., and we are in no better position than the Trust Company building is. They have a fine building, twelve stories high, and its advantages in this improvement will be five times greater and yet they pay half of what we do. Take the Jones property, whose assessment is based at 7.9 per cent., and ours is based on 15 per cent. Take the property across the street. Here is property directly across the street from Mr. Rowland, the property of Judge Gardner, which has been conveyed recently, is assessed 7 per cent., and we, on the other side of the street, are assessed 15 per cent., his property on a valuation system is assessed $1.08, and ours on a valuation system, $2.64. On the lineal foot basis he is assessed $102, and we, directly across the street, are assessed at $204, or just twice as much. Take this schedule we made and just analyze it and see where the equity of this situation is. We feel we do not care to pay more than the cost of this improvement that should be warranted according to the facts.

Mr. Rowland: You give the Railway Company $7.50 per square foot and you give me $17.50. The area is 31,262 and the value on that basis is $239,902.50, and on that basis they are paying 24½ cents per square foot for benefits and I am paying $2.64, taking the area for area.

Commissioner Fagen: That has no reference to where the particular piece of property is located.

Mr. Rowland: This comparison is made on the percentage of area and square foot.

Mr. Carey: What was the basis of figuring the property.

Commissioner Fagen: According to law.

Mr. Carey: That means nothing. We cannot tell what the theory was. We have adopted every theory of law and the results all applied to those theories and the figures I have presented to you. Outside of everything else, all the benefits for this improvement should be charged to the city at large. This is not a local improvement. You take our property. It is just as good as it will be, just as good for every purpose we can use it. It is not to help us, but you help the particular neighborhood. You want to build up the city with a center like this, and it seems to me that all the benefits should be charged to the city who will accept this improvement. We do not enjoy it this very minute, and we cannot see why the reasons of Mr. Gough and Mr. Anderson are not perfectly sound. We feel these maps should be sent back to the Assessment Commissioners with the Law Department to go over the figures that we have presented and see if we cannot get an assessment that will be generally satisfactory and at least that will be equitable. This improvement will be a monument in the city and it should be done right.

Mr. Carey presented the following written objections:

To the Board of City Commissioners,
Jersey City, N. J.

In the matter of the proposed assessment for widening of Sip Avenue, etc., and in re matters incidental thereto.

The subscribers, John T. Rowland, et ux, owners of the property known as Lot B-2, Block 1866, fronting on Sip Avenue, respectfully object to the proposed assessment affecting their property on the following grounds, supplementing the oral grounds stated and set forth by protestants:

1. The value of the property of the subscribers to be taken by the city in the widening of said thoroughfare is far in excess of the amount suggested to be awarded, to wit: $7,875, said suggested award being on a basis of $17.50 per square foot, whereas said property is worth far in excess of the said sum.

2. Benefits are charged against the property of the subscriber in the sum of $21,643.00. This charge is out of all proportion to the benefits that will be derived from the property of the subscribers, and is an inequitable charge against subscribers' property, having in view the assessment for benefits proposed to be imposed upon the other property affected by said improvement and particularly upon the properties immediately opposite and immediately adjacent to the property of the subscribers. We respectfully call your attention in this respect to the schedule herewith submitted showing the benefits charged against such adjacent property, same being figured on a square foot basis and based on a lineal foot basis, said figures per square foot having in view the entire area of property as it exists at present and also the area of the respective properties as same will exist when improvement is put through. As an illustration, we draw attention to the facts concerning property of the Trust Company of New Jersey, valued at $11.00 per square foot by your commissioners in the damage report. It is assessed for benefits at the rate of 97c. per square foot, whereas the property of the subscribers similarly located is assessed for benefits at the rate of $2.64 per square foot. As another illustration, the subscribers draw attention to the benefits charged against the property of the Holland Company (the Public Service Gas Company). The benefits charged against this property are at the rate of 18 3/10c. per square foot of the present area of that property. The benefits charged against the property of the subscribers are at the rate of $2.50 per square foot of present property per area. The percentage figures on property that will be remaining are as follows:

Holland Company, per square foot, 18 6/10c.

Your subscribers' property, $2.64 per square foot.

The percentages as to valuations are as follows:

Holland Company, 2 5/10c.

The subscribers' property, 15 1/10c.

Upon what theory the subscribers' property should be charged for benefits ten times as much as the Public Service Gas Company property is beyond the subscribers to understand.

3. The same discrimination applies to the comparison of figures affecting the Public Service Railroad Company, immediately adjoining the property of the subcribers. The Public Service Railroad Company figures work out as follows:

Benefit charged per square foot for present property, 24 6/10 per cent.

Percentage of benefits to entire valuation of property, .0334 per cent.

Benefits charged per square foot, remaining property, 25 per cent.

The same inequitable situation is presented in the consideration of the property directly across the street from the property of your subscribers, notably lots 4, 5 and 6 in block 1868½, commissioners' numbers 24 and 25, and further comparison is urged with the property of the Trust Company of New Jersey, block 1868, lots 17 and 18, commissioners' number 28.

The table of proportions herewith submitted affect only a portion of the properties, but the assessments work out practically the same as far as all properties fronting on Sip Avenue are concerned in relation to the property of your subscribers.

4. Your subscribers also object to amount of proposed award to be made to your subscribers for damages awarded for injuries to buildings, but your subscribers will be perfectly willing to waive any such claim provided there is an equitable adjustment made on the other figures.

5. The benefits charged against your subscribers' property are grossly in excess of benefits charged against any other property, excepting the property of the Evening Journal Association. For the square foot area of property as it at present stands, the benefits charged against your subscribers' property are even in excess of the benefits charges set out against the property of the said Evening Journal Association.

6. Your subscribers present that in view of the equities presented in the proposed assessment that it should be revised and restated.

7. The entire assessment is inequitably laid, not properly distributed, and the proceedings irregular and unlawful.

Respectfully submitted,

[S.] JOHN T. ROWLAND,
By Robert Carey, Attorney.

To the Board of City Commissioners,
City Hall, Jersey City, N. J.:

The Evening Journal Association, owners of the property known as plot A-2, in block 1865, commissioners' number 46, respectfully protests against the proposed assessment of damages and fixing of benefits in the matter of the widening of Sip Avenue in so far as the same affect the property of the Evening Journal Association, for the same reasons as are set forth in the objections filed by John T. Rowland, et ux., and respectfully refer to the schedules submitted by the said John T. Rowland, et ux., making the same a part of the protest of the subscribers. Respectfully,

EVENING JOURNAL ASSOCIATION,
By Walter Dear, Secretary,
By Robert Carey, Attorney.

Mr. John L. O'Toole, representing the Public Service Company: I have no desire to oppose this improvement from a strictly mathematical standpoint, but the property of the Public Service Company would be left in a rather powerless condition if the matter went through as the city proposes, according to my understanding. We would be left with no relief if five feet were taken along the whole front of property unless it was met with a reserve or with a right for us to run our cars over and across the said five feet proposed to be taken that we may enter into our terminal.

Mr. O'Toole presented the following written protests:

To John F. Kennedy, Thomas J. Carroll and Frank Marten, Commissions of Assessments for Local Improvements in and for Jersey City, N. J.

Sirs: Public Service Railway Company hereby protests against the award of damages and the allowance for benefits made, or proposed to be made, by your honorable body, in the matter of the projected widening of Sip Avenue, between the westerly line of Summit Avenue and the proposed easterly line of Bergen Avenue. The property of the Public Service Railway Company is described in said action by your honorable body as Block No. 1,866, Lot No. 26B, 25G, Commissioners No. 44. The square feet of land to be taken are said therein to be 725. The value of the land taken is said therein to be $5,437.50. The total damages are said to be $5,437.50, and the total benefits are said to be $7,830, leaving an excess of benefits over damages of $2,392.50.

Public Service Railway Company objects and protests against the whole proceeding as being illegal and void as against it for the following, among other, reasons:

1. That said award of damages is too low.

2. That said assessment of total benefits is too high.

3. That by taking five feet along the whole front of protestant's property without attaching or annexing any conditions or restrictions as to its use by the city, or making any provision by ordinance, resolution or otherwise for a right or franchise in the Public Service Railway Company, to run its cars over and across the said five feet proposed to be taken, so that said company may utilize its property lying to the north of said five feet strip now intended to be taken, the company will suffer consequential damages in the deprivation of the use of its said property, for which use said property has been specially prepared, and is peculiarly adapted, amounting to hundreds of thousands of dollars, and is also an injury to its business and would constitute a deprivation and confiscation of its property without due process of law, and in violation of the Constitution of the United States, and of the Constitution and Laws of the State of New Jersey.

4. That said proposed awards and benefits are unequally and partially applied as against the various persons whose lands are taken, and are otherwise illegal.

Respectfully submitted,
Public Service Railway Company.
By William H. Speer, Attorney.

To John F. Kennedy, Thomas J. Carroll and Frank M. Martens, Commissioners of Assessments for Local Improvements, in and for Jersey City, N. J.

Sirs: The Holland Company hereby protests against the award of damages and the allowance for benefits made, or proposed to be made, by your honorable body, in the matter of the projected widening of Sip Avenue, between the westerly line of Summit Avenue and the proposed easterly line of Bergen Avenue. The property of the Holland Company is described in said action by your honorable body as Block No. 1866, Lot No. 27B, Commissioners' No. 43; square feet of land taken, 212.67; value of land taken, $1,595.06. The total amount of damages awarded is $1,595.06; the total of benefits charged is $2,657, and the benefits in excess of damages allowed are $2,392.50.

The Holland Company hereby objects and protests against the whole proceeding as being illegal and void as against it for the following, among other, reasons:

1. The said award of damages is too low.

2. That said assessments of total benefits are too high.

3. That by taking five feet along the whole front of protestant's property without providing in any way, either by conditions or restrictions as to its use by the City, or by making any provision by ordinance, resolution or otherwise for a preservation

of such rights, franchises and privileges as will enable the Holland Company to make such beneficial use of such property as it is accustomed to make, and by law should be allowed to make, so that the said company may utilize its property lying to the north of said strip so intended to be taken in such way and manner as it has been accustomed to use it, the Company will suffer consequential damages and the deprivation of the beneficial use of its said property, for which use said property has been specially prepared and is peculiarly adapted, amounting to hundreds of thousands of dollars, and is also an injury to its business and its property rights, and would constitute a deprivation and confiscation of its property without due process of law, in violation of the Constitution of the United States and of the Constitution and Laws of the State of New Jersey.

4. That said proposed awards and benefits are unequally and partially applied as against the various persons whose lands are taken, and are otherwise illegal.

Respectfully submitted,

THE HOLLAND COMPANY,

Mr. Thomas J. Armstrong appeared: In reference to the Rowland property, I represent three tenants, Callas Bros., Mazzini and Magaldi, and O. C. Horandt, and I presume in the assessment and awards for damages these tenants are provided for in said awards to the landlords, and I wish to be placed on record that before the money is paid to the landlord that it be turned over to the Court of Chancery.

The following petition was presented by Mr. Darling:

In the matter of the widening of Bergen Avenue, between Hudson County Boulevard and Bergen Square, and of the widening of Sip Avenue, between the present westerly line of Summit Avenue and the proposed easterly line of Bergen Avenue, The Darling Realty Corporation hereby protests against the adoption of the map, report and schedule of the Board of Assessment of Jersey City in the above matter and against the taking of the lands proposed to be taken therein and the awards of damages and benefits.

The said Darling Realty Corporation hereby reserves its rights to take any action it may deem proper to protect its rights in the above entitled matter.

DARLING REALTY CORPORATION,

By Benj. J. Darling, Sec'y.

Mr. John Milton: There is a certain fundamental consideration involved here, and in speaking of those I desire to do so in behalf of the Summit Flatiron Realty Corporation, whose property is located in Block 1866, Lot 34a, Commissioners' No. 36. The fundamental consideration is a legal one and will have to be answered by you and will have to be answered by your Law Department, whether or not you can go into one improvement comprising two streets which are not in a continuation of each other and assess as against the owners of property on one street any part of the assessment on the owners of another street. I would be inclined to doubt the legality of that, and, in behalf of the Summit Flatiron Realty Corporation, I make this objection. In behalf of the Universal Security Company, which is the owner of a number of pieces of property, the second fundamental consideration is whether or not, as all the counsels pointed out, this is an improvement which constitutes a benefit to property abutting upon it. We regard it as one which should be borne by the city at large. It confers no special or pecuniary benefits within the meaning of the law. It is a main artery of traffic and its main object is to relieve traffic.

Commissioner Gannon: No legal benefits?

Mr. Milton: I think not.

Commissioner Gannon: When is there?

Mr. Milton: That is a matter of certain limitations, and assuming that this is an improvement for which a special benefit can be assessed and

recognizing that the establishment of area is more or less arbitrary, you have got to establish an area, so to speak, of benefits, and I do not think that can be done exactly according to scientific lines. This is whether or not, confining the area of assessment, so all property abutting on streets which are widened is dealt with under the statute. Fundamentally I do not think you can tie these two streets together. I do not think you can confine the assessment to the streets abutting on the street involved. With reference to the particular property of the Summit Flatiron Realty Corporation, it has been done a great deal of injury, but not only in allowance both from the standpoint of land taken but also as a result of damages to its property. If the Commission wants to substitute under the Assessment Commissioners, it can under the act take testimony relative to the values of lands and damages.

With reference to the property of the Universal Security Company, we make a specific objection as to the area of assessment. We say that the area of assessment has been restricted. Mr. Vanderlip here can offer testimony as to the damages they have been allowed.

Mr. Milton: We could regard the legality of the proceedings as to the amount allowed and appeal to the Circuit Court. I might also suggest and point out the serious danger in attempting now to change the lines of this improvement. We must object to that. If you attempt to transfer the taking of lands on Sip Avenue from the north and south side, the result of that will be that you will have to start new proceedings all over again.

Commissioner Gannon: I want to add to the suggestion of Mr. Dixon and Mr. Milton—it would undoubtedly leave a legal dispute. I do not think that this Commission would determine to start another proceeding in this matter in order that any such amount of $80,000 might be saved. That is my view on that question from my knowledge of the neighborhood. I think something would be saved, but nothing like an amount of $80,000. The values have gone up since taking up this improvement.

Enos F. Jones Estate, Sip Avenue, Block 1868, Lots 19 and 20: We object generally to the award that has been made and the allowance of removing the building and the special benefits which have been charged against the property.

The same applies to the property of R. W. A. English and Morgan Realty Company.

I want also to make a general objection to the proposition which has been raised before with regard to the widening, changing the widening so as to take an additional five feet from the south side of Sip Avenue and leaving the north side intact. We on the north side do not want to lose any more of our property, and I think the city in order to change the lines would necessarily have to start new proceedings and therefore would be objectionable.

Mr. Benjamin Gross: I represent the owner of property at the corner of Bergen Avenue, Block 1871, Lot 2, Commissioners No. 1. We object to the assessment of benefits to property. Solely the main proposition is to relieve congestion of traffic, and as the benefits are enjoyed by the people at large and to a great extent by people outside of the city, we consider that the city at large ought to bear the burden of this improvement. You can see that the imposition of this assessment being placed to the immediate owners of property abutting this improvement will be a very serious burden.

By Commissioner Fagen:

Whereas, This Board met on the 19th day of December, 1922, to hear, consider and adjudicate upon objections and all matters which might be presented in the matter of the confirmation of the map, report and schedule of awards, showing lands to be taken, the awards for damages and the benefits assessed as filed by the Commissioners of Assessment on the 28th day of November, 1922, for the

widening of Bergen Avenue, between Hudson County Boulevard and Bergen Square, and for the widening of Sip Avenue between the present westerly line of Summit Avenue and the proposed easterly line of Bergen Avenue, in accordance with the provisions of Chapter 152, Laws of 1917, and the various supplements thereto and amendments thereof, and

Whereas, Public hearing having been given to persons interested and objections presented, both oral and in writing therein, therefore, be it

Resolved, That the hearing on the confirmation of the aforesaid map, report and schedule of awards be and the same hereby is adjourned and continued for a period of two weeks, to Tuesday, January 2, 1923, at 3 o'clock p. m., in the Assembly Chamber, City Hall, Jersey City, N. J.

Adopted.

BUDGET HEARING

This time and place having been set and advertised for public hearing for the purpose of considering the adoption of the ordinance relating to taxes for the year 1923, the City Clerk read the notice of hearing and called for anyone who might desire to protest against same.

At this time Counsellor Mark A. Sullivan appeared representing the Tax Committee of the Chamber of Commerce and stated: "Our committee has examined your budget as well as they could under the circumstances, and it feels that the increase in the various departments of the city are modest and moderate enough in view of the growth of the city, but it also observes that the greatest increase appears under the heading of debt service, and we are here to obtain information regarding these items. Last year, according to the budget as published, there was some $511,000 appropriated for general school and assessment bonds, and this year $925,000, an increase of some $400,000; for temporary improvement bonds, $71,000, and this year $202,000; emergency bonds and interest deficiency notes, $192,000, and this year, $411,000, and in order to properly analyze these figures, of course we realize that it will be necessary to employ an accountant who would have access to the city's books and probably spend some time in order to get at these figures and see why they are increased so much this year.

"We simply ask the Commission if it can, in a general way, explain why it is that these items are so much larger for next year over what they are for the present year."

After Commissioner Gannon made satisfactory explanation of the propositions presented, Mr. Sullivan stated: "We feel that we have neither criticism nor approval to give to the budget, but that several of the items of the debt service could be taken care of in a manner that would lessen the burden of taxation on its taxpayers."

Written protests were received from J. R. Bowen and Mr. and Mrs. George H. Kennedy, which were noted and ordered filed.

No other persons appeared to protest and no other written protests being received, Commissioner Gannon moved the adoption of the tax ordinance and budget for the fiscal year 1923.

The following communication was presented by Mayor Hague:

"Fellow Commissioners and ladies and gentlemen. It is the wish of my colleagues in this Commission that I as Mayor of the City give expression at this time to the regard and esteem in which we hold our fellow commissioner, James F. Gannon, Jr., Director of Revenue and Finance, at this time when he is about to resign as the head of that department.

"I can truthfully say that it is the opinion of us all that Jersey City is losing a valuable executive and a tax man who is second to none in the State of New Jersey. His efforts in behalf of the City have been indefatigable, the results achieved have been so praiseworthy that it is with extreme regret that we see him sever his connections with this commission, but he feels that he has devoted five years of service to the city and has thereby done his duty as a citizen in the field in which he was most proficient. Our associations with him have been pleasant and there has never been a time in matters of policy for the good of the City that he has not been whole heartedly and unreservedly for the City's interest. Under his guidance Jersey City has prospered, the assessments in the City having during his term been increased by over $150,000,000. No selfish motive has been permitted to swerve him from his duty, and in seeing him leave the City Commission we express our regret and wish him Godspeed and success.

"We must also take a moment of this time to congratulate ourselves and the people of Jersey City generally upon the acquisition of Mr. John Saul, who takes the reins as the head of the Finance Department of Jersey City. Mr. Saul has been a student of municipal affairs for 25 years; he has been closely allied with municipal problems; he knows Jersey City, her needs and requirements, and will be a worthy successor of the man whose place he fills from this day on. For those 25 years that I have mentioned he has been the head of the Building Department of Jersey City, a department most important in the progress and life of any great municipality. This is a department from which chaos might come if there was not at its head a man of fearless integrity and great ability. As the head of this department Mr. Saul was a man of great integrity and unquestioned ability. It has been, I think truthfully, said of him that he is unexcelled as a superintendent of buildings in this country. In the performance of his duties he knows neither friends nor foe. Friendships or politics are foreign to the administration of that office. For that reason we have passed a resolution this morning transferring the Building Department from the Department of Public Affairs to the Finance Department in order that Jersey City may continue to have John Saul as the chief officer and administrative head of the department, which he has captained so long

and so well. He had been a director of banks, knows the finance problem intimately; he is a student who always gives the best that is in him to the day's work in front of him, and although we express regret at the departure of Commissioner Gannon we congratulate ourselves and the people of Jersey City in hailing Commissioner John Saul as his successor.

"Respectfully,

(Seal) "FRANK HAGUE,

"Mayor."

On motion of Commissioner Fagen the Board adjourned.

MICHAEL I. FAGEN,
WILLIAM B. QUINN,
JOHN SAUL,
FRANK HAGUE,

Commissioners.

Whereas, according to the final estimate prepared and approved by the said Consulting Engineer there appears to be due the said John T. Brady & Co. the sum of $319,,607.49; and

Whereas, Under the provisions of said contract, 2 per cent. of the amount of said contract is to be retained for a period of one year after the acceptance of the work, as a fund to guarantee the proper maintenance thereof, as provided in section AA of the contract, page 32 of printed specifications; and

Whereas, The books of the Water Assessor's Office for metered water shows a charge of $12,374.10 for water supplied to the Pennsylvania Railroad Company Meadow Shops, said charge of $12,374.10 was result of a test made on March 3, 1922, by the Water Conservator, of the Pennsylvania Railroad Company's 6-inch Gem Meter No. 679,-624, which test showed a loss in registration of 48 per cent in revenue to the City. In other words, said meter was only registering 52 per cent. of all the water passing through it; and

Whereas, On May 15, 1922, a further test was made on said meter to check the first test so that the charge for under-registration would be absolutely correct. This showed that the first test or loss in registration was 3 per cent too high, and that the bill rendered should have been $10,644.08, instead of $12,374.10, or a difference of $1,730.02 overcharge. Both of these tests were made in the presence of the officials of the Pennsylvania Railroad Company.

Resolved, That the item of metered water on 6-inch Gem Meter No. 679,624 at Meadow Shops against the Pennsylvania Railroad Company be abated from $12,374.10 to $10,644.08, and that the amount of $1,730.02 overcharge be

HEARINGS

At this time Mr. Hornstein, representing Max & Ruskin, appeared and requested that the amendment to the zone ordinance changing to a business district Summit avenue between High street and Mercer street be passed as his clients intended to erect three-story brick building with stores in the immediate future.

Commissioner Saul recommended that the passage of said ordinance would be the proper course to take in the matter, and he moved the passage of same.

By Commissioner Saul:

Resolved, That the following ordinance do now pass:

An ordinance to amend an ordinance entitled "An Ordinance Regulating and Restricting the Location of Trades and Industries, and the Location of Buildings Designed for Specified Uses, and Regulating and Limiting the Height and Bulk of Buildings Hereafter Erected, and Regulating and Determining the Area of Yards, Courts and Other Open Spaces Surrounding Buildings, and Establishing the Boundaries of Districts for the Aforesaid Purposes and Providing Penalties for the Violation of its Provision," passed March 21, 1922.

The Board of Commissioners of the Mayor and Aldermen of Jersey City do ordain as follows:

1. That all that part of Summit avenue, on the easterly and westerly sides thereof, between the southerly side of High street and the northerly side of Mercer street, be and the same is here ordered re-districted and re-zoned so that said street may hereafter be devoted to business purposes.

At this time Miller and Ungar, representing Heyman and Jaffe, petitioners for the relocation of Stegman street, also Mr. Mark Sullivan and Mr. Nimmo, representing Mr. Hagopian and Miss Matthews, property owners on Van Houten street. Commissioner Fagen stated that he desired to have this matter settled, and any discussions in dispute should be cleared up because the contractor who is constructing the sewer in the Fisk Street drainage area is about to start work for the laying of sewer in Stegman street, and unless this matter is settled very shortly the petitioner in this matter will have to arrange for a sewer should the relocation of Stegman street go through.

Mr. Miller, representing the petitioners, stated the chief obstacle has been removed in that the Gantz block has been purchased by the proponents of this proposition.

Mr. Nimmo, representing the Hagopian interests and that of Miss Matthews on Van Houten street, feels that some arrangements could be made by the filling in of the back of the lots and making reparation for an entrance to the garage occupied by Mr. Hagopian. Mr. Kerpen, appearing, stated that if he was assured of the opening of Sterling avenue, thereby giving him

access in and around his property, he would be willing to withdraw his objections.

Commissioner Fagen stated that with all these suggestions something could be done by the petitioners to come to some agreement with these protestants, and thereby have an ordinance presented to this Board which will cover the situation, together assuring the protestants of the protection required.

Mr. Sullivan asked that this hearing be adjourned for one week so that he could have the required ordinance prepared and introduced, to which Commissioner Fagen assented.

By Commissioner Fagen:

Resolved, That the hearing on the application of Heyman & Jaffe for the relocation of Stegman street, between Hudson Boulevard and West Side avenue, be and the same hereby is adjourned for a period of one week, to Tuesday, February 27, 1923, at 3 o'clock p. m. in the Assembly Chamber, City Hall, Jersey City.

Adopted.

IMPROVEMENT HEARING

This time and place having been set and advertised for the purpose of con-

sidering the confimation of final assessment map and report for the Improvement of Mallory Avenue, between Clendenny Avenue and Communipaw Avenue, the City Clerk called for anyone who desired to be heard thereon.

Mr. O'Sullivan, owner of property located at 213 Clendenny Avenue, Lot 57, Block 1757, appeared and objected to the payment of benefits; that the cost of the improvement should be borne by the city, or by the county. As to the mechanical construction of the improvement, there is a basin on the eastern end of the improvement directly opposite Clendenny Avenue, which has been under repair five or six times by the city, and that there must be something wrong about it. Commissioner Fagen stated that there is a five year guarantee with this improvement and the cost for maintenance and repairs will be borne by the contractor for five years.

Mr. Sullivan stated that a petition in which a majority of the owners are against this improvement has been in circulation, and that the petition for this improvement had a considerable number of signatures which were obtained on a Sunday, and that being so it is illegal to accept such a petition; that the neighborhood did not warrant an extensive improvement; that it is not a benefit but a detriment to the neighborhood, the place having become a public playground for hoodlums and if there is any benefit it should be directly to the city, or a good part of it to the county because this improvement as made is really an outlet to the park; that he objected very much to paying anything for the improvement.

The following also appeared protesting because of the excessive assessment on their property:

Mrs. Anthony Kelly, 256 Clinton Avenue.

Chas. Heller 219 Clendenny Avenue, 54a, 1757.

Martin F. O'Nieal, 217 Clendenny Avenue, 55a, 1757.

Christian Geiger, 92 Roosevelt Avenue.

Frank W. A. Hetterick,

Edward J. Pray,

Lillie Perry, 165 Boyd Avenue, Lot 40, Block 1765.

Mr. Harry Lane appeared representing the properties of Dr. Jos. M. Rector and Warren Dixon, Lots 45, 46, 41, 42 and 43, Block 1744, stating that the assessment is so high that it is confiscatory and is not at all with the benefits that have accrued, and if any benefits have accrued from this project and particularly from the plaza being there ,there is no benefit to the property; that it is merely a driveway. The benefits are grossly excessive. From a comparison some properties seem more benefited than others. Our share of the assessment compared with $58,000 total assessment is out of proportion.

Commissioner Fagen stated that he would go over the matter of assessments and make a report within two weeks and moved that the hearing thereon be adjourned until then.

By Commissioner Fagen:

Resolved, That the hearing on the confirmation of the final assessment map and report for the widening and improvement of Mallory Avenue between Clendenny Avenue and Communipaw Avenue be and the same hereby is adjourned for a period of two weeks to Tuesday, April 17th, 1923, at 3 o'clock p. m. in the Assembly Chamber, City Hall, Jersey City.

Whereas, Property known as lot 34 in block 1360 3-4, No. 43 New Street, owned by William Vogt, etux, was sold in Tax Sale No. 62, held April 11, 1923, to the Harrington Company, for $283.61, for which Tax Sale Certificate No. 2248 was issued; and

Whereas, An error was made in computing the interest on balance of $264.23 in arrears from February 8, 1923, to date of sale on Assessment No. 727 for the Improvement of New Street, correct amount of interest being $3.14 instead of $14.38 charged in error, thereby causing said property to be sold for $283.61 instead of $272.37, the correct sales amount making an overcharge of $11.24; and

Whereas subsequently the Hudson County Board of Taxation per Judgment No. 1185 cancelled the improvement assesment of $3,700 at $34.48 per thousand, thereby reducing the bill to $106.89 in taxes, against which they paid $117.24, thereby making an overpayment of $10.35 in 1922 taxes; therefore be it
